NURS 225

Winter 2021

Introductory Acute Care Nursing Practice II

COURSE OUTLINE

**Note: students are expected to familiarize themselves with this course outline,
the Undergraduate Nursing Programs Student Manual and Moodle site.**

INSTRUCTORS:

Shelley Bessey MN, RN: Lecture NURS225 A/B

-Lab X/Z

Amanda Ritchie MD, BScN, RN : Lab W/Y

Clinical Groups L1, L3, L5, L7

Mirela Aron BScN, RN: Clinical group L2

Adrianna Rudderham MN, BScN: Clinical group L4, L6

Calendar Statement

NURS 225 -Introductory Acute Care Nursing Practice II

(★6) This practicum in acute care settings further develops knowledge, skills, and abilities to provide safe ethical patient care for adults with episodic and chronic health challenges. Intentional clinical learning activities integrate evidence-informed knowledge from NURS 224 and 216. The focus is on assessment, clinical reasoning, care planning, and documentation in paper and digital formats. Note: Available only to nursing students in the Collaborative/Honors Program and Bilingual Program. Prerequisites for Collaborative/Honors Program students: NURS 220 (or NURS 201) and NURS 221 (or NURS 202).

Course Hours (for this term)

Lecture: 15 Lab: 30 Clinical: 120

Course Learning Outcomes

Upon completion of this course, the student will be able to:

- Demonstrate the nursing process in clinical practice when working with clients experiencing episodic and chronic health challenges;
- Employ relational nursing practice and inquiry skills/abilities when working with clients experiencing episodic and chronic health challenges;
- Recognise and practice within the current nursing student scope when working with clients with episodic and chronic illness;
- Identify and implement safety concepts within clinical settings;
- Detect and analyze ethical issues within nursing practice.

Course Instructors

Name	Office number	Phone number	email
Shelley Bessey	S109G	(780) 831-9477	Shelley.bessey@keyano.ca
Amanda Ritchie			Amanda.ritchie@keyano
Mirela Aron			Mirela.aron@keyano.ca
Adrianna Rudderham			Adrianna.rudderham@keyano.ca

Note:

- Please allow 2 business days for a response. Include your course name in your subject line.
- Professional and respectful communication is expected.

Communication

It is the students' responsibility to ensure that they check Keyano Email and Moodle courses at minimum of twice daily, once in morning and evening. It is the students' responsibility to ensure thorough review of all resources and content on the Moodle course site. The instructors have placed many resources and documents to ensure the students' success in each course.

Instructors will communicate with the student group by announcements in the news forum on Moodle. Please ensure that you check this at least twice daily. Please note that the method to contact your instructor is email. Please allow a 48-hour

minimum response time from your instructor on business days. Instructors will not be checking emails on evenings and weekends/holidays. Do not text or call your instructor unless you will be absent for clinical that day; inquiries related to assignments and course content will be sent in an email to your instructor.

Online Course Information

Due to the pandemic, COVID-19, this course will be delivered in an online format. Instructors will deliver course material by utilizing different platforms that best suits the course. Online resources may include Microsoft Teams, ZOOM, virtual simulation, Adobe Connect, or Voice-Over PowerPoint Presentations. Courses will remain interactive throughout the semester and may include video lectures, forum discussions and virtual group projects. Evaluation criteria will be listed in each course syllabus.

It is the responsibility of the student to ensure access to these resources and participate in course content fully. If technical difficulties arise it is the responsibility of the student to contact their instructor as soon as possible to inform them of such. Where possible instructors will seek mutual resolution in the best interests of the class as a whole.

Required Supplies

Stethoscope

Penlight

A watch with timing capability (second hand or timer)

Sphygmomanometer

Med Cards or Drug Guides

Faculty of Nursing approved uniform (including appropriate footwear)

Overview of Required Learning Experiences

Clinical Practice

In order to pass Nursing 225, students must demonstrate safe, knowledgeable, and ethical nursing practice, consistently demonstrate professional behavior, and complete the specified learning experiences.

Components of this clinical experience will include:

- Labs as outlined under the 'Lab 'section.
- A scheduled nursing practice experience in the clinical setting. All N225 students will do 10 clinical shifts on the Surgical or Medical Unit.
 - The focus of these experiences will be basic nursing care, including bathing, mobility, feeding, as well health assessment and medication administration.
- Clinical rotations will commence on week 2. Clinical rotations may include two to three 12-hour day shifts each week including weekends (i.e., Saturday and Sunday). The client review will occur on the day prior to the scheduled shift as per timetable or as directed by your instructor.
 1. Client review will prepare the student to provide safe, knowledgeable, ethical care and is essential to successful completion of this course.
 2. Complete client review on assigned resident(s)/client(s) to include a detailed plan of care consisting of nursing diagnosis, goals, interventions and rationale for intervention. If caring for a client for more than one day, update client information/assessment and nursing care plan on each successive day with the client. Plan of Care for clients are to be submitted to the instructor for review following pre-conferences or as directed by your instructor.
 3. Perform initial and ongoing assessments on assigned residents/clients.
 4. Document resident/client care in a draft form for review by the instructor prior to documenting any narrative notes in the resident/client's chart. Document on appropriate flow sheets for each resident/client.

If a student is absent from the clinical setting due to illness the following must occur:

- The student will contact their assigned unit;
- The student will contact The Nursing Office at 780-791-4889 and leave a message;
- The individual Instructor will advise students on instructor contact preference;
- The instructor may advise the student to contact the Keyano College Nurse at 780-791-4808.

Students not following these requirements will be considered absent without leave and abandoning their residents/clients. This may result in clinical failure.

If the student is absent from the clinical setting for other reasons:

- The student will contact their assigned unit;
- The student will contact the Nursing Office at 780-791-4889 and leave a message;
- The individual instructor will advise students on Instructor contact preference.

Labs

It is the expectation that the knowledge and skills obtained from the Nursing 224 and Nursing 225 Fixed Resources and Labs will be incorporated into your Nursing 225 clinical rotation.

It is an expectation that you read all the required material in preparation for the labs. Being prepared allows you more time to practice the skill portion of the lab. Please see timetable for dates and times.

Course Evaluation

Assignments/Course components	Dates	Weight
Medication Administration Proficiency Exam (MAPE)	January 7 th 08-0845	Pass/Fail
Clinical Care Plans	Weekly in Clinical	Pass/Fail
Reflections	Weekly following Clinical	Pass/Fail
Clinical Evaluation Tool	End of Term	Pass/Fail

Assignments Descriptions

Complete at least one attempt of a Medication Administration Proficiency Exam (MAPE) (available on Moodle)

The purpose for the medication administration proficiency exam is to demonstrate proficiency in providing safe medication administration in preparation for the clinical setting. Exam content is from the Elsevier eBook Morris, D.C. G and Brown, L.A. M. *Calculate with Confidence, Canadian Edition*.

In preparation for the MAPE, students need to review the following Units 1 through 4.

Unit One (chapters 1 to 4): Math Review 1. Fractions 2. Decimals 3. Ratio and Proportion 4. Percentages. This unit is a great review of basic math skills.

Unit Two (chapters 5 to 7): Systems of Measurement 5. Metric, Apothecary, Household and Other Systems 6. Converting Within and Between Systems 7. Additional Conversions Useful in the Health Care Setting.

Unit Three (chapters 8 to 14): Methods of Administration and Calculation 8. Medication Administration 9. Understanding and Interpreting Medication Orders 10. Medication Administration Records and Drug Distribution Systems 11. Reading Medication Labels 12. Dosage Calculation Using the Ratio and Proportion Method 13. Dosage Calculation Using the Formula Method 14. Dosage Calculation Using the Dimensional Analysis Method

Unit Four (chapters 15 to 18): Oral and Parenteral Dosage Forms and Insulin Calculations 15. Oral Medications 16. Parenteral Medications 17. Reconstitution of Solutions 18. Insulin

The MAPE is scheduled to be written on **January 7th @ 0800** using Moodle. Students may use a basic calculator in the exam. The pass mark is 90% requiring students to successfully complete 27/30 questions on the MAPE. Refer to course timetable for location. Any required changes in time/room number will be communicated on Moodle. The MAPE will not be subject to accommodations; the exam will be written within the allotted 45 minute time frame and invigilated by the instructor in the classroom.

Students who are unsuccessful will be given the opportunity to rewrite the MAPE, which must be completed on **January 8th @ 0800**. If the student is unsuccessful in the MAPE write/rewrite, the student can administer medications under direct supervision until successful in the weekly subsequent rewrites of the MAPE, up to a maximum of 3 writes of the MAPE.

If the student is not able to successfully complete the MAPE exam in 3 attempts, the student will receive a D in the Nursing 224 and will not complete the clinical component. Being unsuccessful in writing the MAPE indicates that the student cannot safely calculate medication dosages which will then be reflected in the Clinical Assessment Tool as a clinical failure.

Weekly clinical preparation and participation (care plans, concept maps)

Being adequately prepared also includes having a plan of care that encompasses the delivery of safe care to assigned resident/client(s). If a student is not adequately prepared for clinical to deliver safe, knowledgeable and ethical care to assigned resident/client(s), the student will not be allowed to care for the assigned resident/client and the instructor may request that the student either leave the unit or stay on the unit with a plan to develop learning goals and work on strategies to ensure future provision of safe care or for the assigned resident/clients in a subsequent shift.

Critical Self Reflections

Identifying critical incidents as a student in nursing education facilitates the integration of theory and practice and can assist the student to foster reflective practice, along with personal and professional development. Instructors will evaluate how students have shown reflective practice by asking

questions during pre-conferences, throughout the clinical shifts, during post-conferences, and during midterm and final evaluations.

Students are highly encouraged to critically reflect on their nursing practice throughout the course. Confidentiality must be maintained when describing a clinical incident.

Recommended guidelines for Critical Self-Reflection (also known as Reflective Journaling):

- Describe in detail a significant experience that you had during your week. Include thoughts, feelings, and perceptions.
- Reflect on the experience. Describe why this experience was important to you, and what factors (assessment, previously learned experiences, values, beliefs, stereotypes or biases) influenced yours/someone's else's decisions/actions/feelings.
- Evaluate your strengths and areas needing improvement in this situation. What were the strengths and areas for improvement for the other health care professionals involved? Explain why you think these were areas of strength or areas needing development. How the client/family is ultimately affected?
- Describe your significant learning. How does this impact your nursing practice? Describe what you would do differently/investigate/maintain if a similar incident should occur in the future. Describe what you would teach someone else (e.g., peer) about this incident in order to improve nursing practice.
- Critical self-reflection should include evidence from the literature.

Clinical Assessment Tool - students will reflect and document their progress in the clinical portion of the course as per the evaluation document.

Students' practice performance will be evaluated according to the criteria outlined in the Clinical Assessment Tool (CAT) (**Appendix A**).

- This will be accomplished through observation, assessment, and evaluation of the student during nursing practice. Evaluations will be completed by the instructor and may be supplemented with input from peers, staff, residents, clients, and other nursing instructors.
- In addition, preparation and safe clinical knowledge will be assessed through nursing plan of care, as well as through the application of the nursing process (nursing diagnosis, goals, interventions, and evaluation of client care).
- Students are expected to be prepared for each clinical day by reviewing procedures, medical conditions, medications prior to providing client care. Required psychomotor skills may also need to be reviewed prior to the clinical experience.
- Students should be prepared to discuss their resident/client plan of care (including the resident/client priority needs, nursing diagnoses, goals, interventions, medications, resident/client teaching plan) with the instructor during pre-conference, post-conference and during clinical time.

Other Criteria to receive a "Pass"

- Attend all classes. If you miss a class due to illness or unforeseen circumstances, you must inform your instructor prior to class.

- All assignments must be completed and submitted to instructor on the specified due date as outlined.
- In class participation includes active engagement in discussions and activities and listening to and demonstrating respect for classmate's contributions.
- Students must refrain from cell phone and internet use during class and clinical.
- Students are expected to come to class prepared to participate.

Final Grades

This course is Pass/Fail using the Clinical Assessment Tool for evaluation.

Performance Requirements

Student Responsibilities

It is your responsibility as a student to contact the Office of the Registrar to complete the forms for Withdrawal or Change of Registration, and any other forms. Please refer to the list of important dates as noted in the Academic Schedule in the [Keyano College credit calendar](#). The Keyano College credit calendar also has information about Student Rights and Code of Conduct. It is the responsibility of each student to be aware of the guidelines outlined in the Student Rights and Code of Conduct Policies.

Student Attendance

Class attendance is useful for two reasons. First, class attendance maximizes a student's learning experience. Second, attending class is a good way to keep informed of matters relating to the administration of the course (e.g., the timing of assignments and exams). Ultimately, you are responsible for your own learning and performance in this course.

It is the responsibility of each student to be prepared for all classes. Students who miss classes are responsible for the material covered in those classes and for ensuring that they are prepared for the next class, including the completion of any assignments and notes that may be due.

Academic Misconduct

Students are considered to be responsible adults and should adhere to principles of intellectual integrity. Intellectual dishonesty may take many forms, such as:

- Plagiarism or the submission of another person's work as one's own;
- The use of unauthorized aids in assignments or examinations (cheating);
- Collusion or the unauthorized collaboration with others in preparing work;
- The deliberate misrepresentation of qualifications;
- The willful distortion of results or data;
- Substitution in an examination by another person;

- Handing in the same unchanged work as submitted for another assignment; and
- Breach of confidentiality.

The consequences for academic misconduct range from a verbal reprimand to expulsion from the College. More specific descriptions and details are found in the Student Rights and Code of Conduct section of the Keyano College credit calendar. It is the responsibility of each student to be aware of the guidelines outlined in the Student Rights and Code of Conduct Policies.

In order to ensure your understanding of the concept of plagiarism, you must successfully complete the online tutorial found on ilearn.keyano.ca. Then print the certificate, sign it, and show it to each of your instructors. Your course work may not be graded until you show this signed certificate.

Specialized Supports

The Student Services department is committed to Keyano students and their academic success. There are a variety of student supports available at Keyano College. Due to the continuing situation with the Covid-19 pandemic, the offered support services will be implemented differently this semester by being provided mostly virtually. In-person service can be requested as needed. All Alberta Health Services guidelines will be followed for in-person appointments—wear a mask, maintain two meters of physical distance, use hand sanitizer, and stay home if you are unwell.

All student services are available during Keyano business hours: Monday to Friday, 8h30-16h30.

The Library has evening and weekend hours. Please check keyano.ca/library for current hours

Accessibility Services: provides accommodations for students with disabilities. Students with documented disabilities, or who suspect a disability, can meet with a Learning Strategist to discuss their current learning barriers and possible accommodations. Students who have accessed accommodations in the past are encouraged to contact us to request them for the semester. Please note that requesting accommodations is a process and requires time to arrange. Contact us as soon as you know you may require accommodations. For accessibility services supports and to book a virtual appointment, please contact accessibility.services@keyano.ca.

Accessibility Services also provides individual and group learning strategy instruction for all students, as well as technology training and supports to enhance learning. Meet with a Learning Strategist to learn studying and test-taking strategies for online classes. Schedule an appointment with the Assistive Technology Specialist to explore technology tools for learning. Book an appointment today by emailing accessibility.services@keyano.ca

Wellness Services: offers a caring, inclusive, and respectful environment where students can access free group and individual support to meet academic and life challenges. Mental Health Coordinators offer a safe and confidential environment to seek help with personal concerns. All individual appointments will continue virtually.

Wellness Services welcomes students to participate in any of the virtual group sessions offered throughout the academic year addressing topics including mindfulness and test anxiety.

Individual virtual appointments can be made by emailing wellness.services@keyano.ca.

Library Services: provides students with research and information supports as they engage in their studies. Library staff are available to support you both virtually and in person during the fall semester. For library service supports and inquiries, please email askthelibrary@keyano.ca.

Begin your research with the [Library's FIND page](#). Search for sources using OneSearch, the Library's Catalogue, or by searching in a specific database selected from the [A-Z Database List](#).

Individual support with the Information Librarian is available virtually. Appointments can be requested by using the [Book A Librarian online form](#).

Research and Subject Guides are helpful resources when beginning your research or addressing other information needs. To view a subject or course specific guide, go to the Subject Guide webpage [here](#).

To access additional research resources, including Citation Guides (APA, MLA, Chicago, or IEEE), go to the [Research Help Library page](#).

The Loanable Technology collection is available to support students in their online learning pursuits. Items available for borrowing include mobile projectors, webcams, noise cancelling headphones, Chromebooks, and laptops. For an up-to-date list of technology available for borrowing, go to the Library's [Loanable Technology webpage](#).

Skill Centre: provides academic support services to students registered in credit programs at Keyano College in the form of tutoring, writing support groups, facilitated study groups, workshops and study space. Tutoring services are **free** to Keyano students. Tutoring is available for Math, Writing, English, and Science subject areas.

While most courses are being offered online, the Skill Center will be offering mostly virtual tutoring services and in-person sessions as requested. Please email Skill.centre@keyano.ca to get in contact with our tutoring staff.

For the most up to date information on how to book a tutoring session, please view the [Keyano Skill Centre homepage](#).

Academic Success Coaching

Offers you support and access to resources for your academic success to help you to find the Keys to your Success. The Academic Success Coach will work with you to develop an academic success plan, develop your study and time management skills, and connect you with the right resources here at Keyano. Academic.success@keyano.ca is the best way to access resources during virtual service delivery. The Academic Success Coach is located in the Skill Centre in CC-119 at the Clearwater Campus.

E-Learning

Technology and internet will impact your online learning experience. It's important that you are able to watch an online video and other course materials, take online quizzes, and participant in a live class with your instructor and other students.

Keyano College operates in a Windows based environment and having the correct tools for online learning is important. Here's a list of recommended system requirements for Fall 2020.

Internet Speed

Minimum Internet speeds of 5 Mbps.

Recommended Internet speeds of 25 Mbps (especially if you are sharing your internet at home).

Check your internet speed with Fast.com.

System requirements:

Microsoft Windows	Apple
<p>Minimum Requirements:</p> <ul style="list-style-type: none">· A Windows 10 computer/laptop<ul style="list-style-type: none">· Minimum 4GB of RAM.· 10GB+ available hard drive storage.· Enough available hard drive space to install the Microsoft Office suite (approximately 3GB). Microsoft Office software is free to all Keyano students and employees.· Microphone, webcam and speakers. A headset with a microphone is recommended.· System updates must be regularly installed.· Anti-Virus / Anti-Malware software	<p>Minimum Requirements:</p> <ul style="list-style-type: none">· A Macintosh (V10.14 and above) computer/laptop<ul style="list-style-type: none">· Minimum 4GB of RAM.· 10GB+ available hard drive storage.· Enough available hard drive space to install the Microsoft Office suite (approximately 3GB). Microsoft Office software is free to all Keyano students and employees.· Microphone, webcam and speakers. A headset with a microphone is recommended.· System updates must be regularly installed.· Anti-Virus / Anti-Malware software.
<p>Recommended Requirements</p> <ul style="list-style-type: none">· 8GB of RAM· A method of backing up/synchronizing to local or cloud-based storage such as OneDrive is highly recommended. This is included if you complete the setup of KeyanoMail and download MS Office using your Keyano email for free.	<p>Recommended Requirements</p> <ul style="list-style-type: none">· 8GB of RAM· A method of backing up/synchronizing to local or cloud-based storage such as OneDrive is highly recommended. This is included if you complete the setup of KeyanoMail and download MS Office using your Keyano email for free.

Chromebooks are **not** recommended as they are not compatible with testing lockdown browsers.

A Microsoft Surface or iPad or iPad Pro may be possible alternatives in some program areas.

Computer Software

Students will be able to get access to Microsoft Office 365 for Free using Keyano Credentials by [clicking here](#).

Recording of lectures and Intellectual Property

Students may only record a lecture if explicit permission is provided by the instructor or by Accessibility Services. Even if students have permission to record a lecture or lecture materials, students may not publish any of the lectures or lecture materials, this includes any recordings, slides, instructor notes, etc. on any platform. Thus no student is allowed to publish or sell instructor notes without formal written permission. It is important to recognize that the Canadian Copyright Act contains provisions for intellectual property.

ITS Helpdesk

If you are having issues with your student account, you can contact the ITS Helpdesk by emailing its.helpdesk@keyano.ca or calling 780-791-4965.

NURS 225 Clinical Assessment Tool

University of Alberta

Faculty of Nursing

Clinical Instructor Name:		Student Name:	
Clinical Agencies:		Dates of Clinical:	
Total Scheduled Hours	120	Clinical Grade:	PASS / FAIL
Number of hours attended:	_____		

The six domains of Knowledge, Research, Methodology, Critical Inquiry and Evidence, Nursing Practice, Communication and Collaboration, Professionalism and Leadership are from The National Nursing Education Framework (NNEF), (CASN, 2015). Some indicators in each of the six domains (BOLDED) are Essential Components copied from the NNEF (CASN, 2015). These bolded indicators may not be applicable to a clinical course. The Teaching Team Lead, in consultation with the Associate Dean of Undergraduate Programs, will determine applicability of these indicators. The remaining indicators in each of the domains are course specific outcomes.

A Pass on the Clinical Assessment Tool requires an achievement of a PASS in each of the six domains. The clinical instructor, in consultation with the course Teaching Team Lead, determines if the student has met the requirements for each of the domains.

Final Overall Summary (to be completed with summative assessment)
Student Goals: Write 2-3 SMART goals that you will continue to work on as you progress through the nursing program.
Instructor Summary and Recommendations

1. Knowledge	Formative			Summative	
Indicators	<i>Developing</i>	<i>At Risk</i>	<i>Not Yet Assessed</i>	<i>Pass</i>	<i>Fail</i>
1.1 Demonstrates foundational knowledge of nursing including nursing history, nursing theories and other theories relevant to nursing practice.					
1.2 Demonstrates foundational knowledge of human development and functioning over the life-span that builds on secondary education, from natural & life sciences, and from behavioural & social sciences (anatomy, physiology, microbiology,					

biochemistry, pharmacology, nutrition, pathophysiology, genetics, psychology, sociology).					
1.3 Demonstrates a retention of knowledge and progression throughout clinical.					
1.4 Demonstrate the ability to utilize the Nursing Process to provide care at a foundational skill level to clients in assisted living and long term care in accordance with your current scope of practice.					
1.5 Utilize a Nursing Care Plan (NCP) in prioritizing health issues and care goals for a client in a continuing care environment.					
1.6 Articulate the purpose of, and provide relevant health education related to vital sign monitoring.					
1.7 Demonstrate understanding of the concepts of dignity and autonomy and embed them in your practice.					
1.8 Demonstrate the ability to follow the principles of safe back care while positioning clients for comfort, safety, and prevention of impaired skin integrity.					
1.9 Discuss special considerations and risk factors for impaired tissue integrity (acute & chronic)					
Student reflective summary and goals: Provide a reflective summary of what you have learned and write 1-2 SMART goals to improve your practice for this domain.					

Formative:

Summative:

Instructor feedback:

Formative:

Summative:

2. Research, Methodology, Critical Inquiry and Evidence	Formative			Summative	
Indicators	<i>Developing</i>	<i>At Risk</i>	<i>Not Yet Assessed</i>	<i>Pass</i>	<i>Fail</i>
2.1 Come prepared to clinical with evidence to support practice					
2.2 Able to seek, locate and interpret a broad range of information, knowledge, evidence, methodologies, and practice observations within the profession and across disciplines.					

2.3 Discuss how the NCP (format may vary depending on site) is implemented and used in organizing and providing client care.					
2.4 Correlate the intended effect of prescribed medications with client health history, assessment findings including vital signs, and NCP goals and planned outcomes.					
2.5 Differentiate medication intended effects from unintended effects and discuss how each may be manifested by the client.					
2.6 Examine the Registered Nurse's role in medication management and administration in a continuing care facility.					
<p>Student reflective summary and goals: Provide a reflective summary of what you have learned and write 1-2 SMART goals to improve your practice for this domain.</p> <p>Formative:</p> <p><i>Summative:</i></p>					
<p>Instructor feedback:</p> <p>Formative:</p> <p><i>Summative:</i></p>					

3. Nursing Practice	Formative			Summative	
Indicators	<i>Developing</i>	<i>At Risk</i>	<i>Not Yet Assessed</i>	<i>Pass</i>	<i>Fail</i>
3.1 Demonstrates the use of clinical reasoning, nursing knowledge, and other evidence to inform decision-making in diverse practice situations.					
3.2 Demonstrates engagement and leadership in the provision of comfort care including pain and symptom management.					
3.3 Performs holistic and comprehensive assessment of diverse clients, to plan and provide competent, ethical, safe, and compassionate nursing care.					
3.4 Demonstrate consistent proper hand hygiene and appropriate infection control techniques (apply principles to use of equipment).					
3.5 Integrate and apply self-care principles to safe client handling and complete a self-assessment, environmental assessment, client assessment and functional assessment.					
3.6 Identify and practice safe patient handling in a variety of situations including: a. To safely assist care team with client positioning, moving and lifting.					

<ul style="list-style-type: none"> b. To operate assisting equipment (including wheelchairs, beds and chairs) with agency staff, instructor and/or peers within the student scope of practice. c. To demonstrate how to safely accompany a patient who is mobilizing using an assistive device. d. Demonstrate the use of good body mechanics when assisting patients with mobilization. 					
<p>3.7 Demonstrates an understanding of the concept of oxygenation and perfusion in relation to overall health status including:</p> <ul style="list-style-type: none"> a. During patient care planning and prioritization at a beginning level b. Management of portable oxygen tanks and oxygen tubing 					
<p>3.8 Demonstrate the concepts of dignity and autonomy in clinical practice.</p>					
<p>3.9 Demonstrate the ability to safety and competently function as a nursing student in the Assisted Living setting.</p>					
<p>3.10 Demonstrates the ability to perform a head to toe assessment, including vital signs, on a client/resident using appropriate subjective and objective assessment techniques.</p>					
<p>3.11 Demonstrates the ability to assist clients with performing ADLs including, oral care, feeding, comfort care, bathing and bed making in the continuing care setting.</p>					
<p>3.12 Demonstrate critical thinking, clinical judgement and clinical decision-making when caring for clients and developing and examining care plans. For example:</p> <ul style="list-style-type: none"> a. Demonstrate the ability to prioritize interventions based on assessment data obtained. 					

<ul style="list-style-type: none"> b. Able to adapt when patient care needs change (eg. Unexpected finding, deterioration in patient condition) at a beginning level. c. Begins to recognize the benefits, risks and consequences when choosing a particular course of action. 					
<p>3.13 Demonstrate an understanding of the concept of elimination, including:</p> <ul style="list-style-type: none"> a. Obtaining accurate subjective and objective assessment data. b. Identifying and selecting various incontinent and skin care products as appropriate. c. Safely and competently assist clients with elimination, including the use of equipment such as bedpans, urinals etc. d. Performs peri-care as appropriate, ensure to maintain client comfort and dignity throughout. 					
<p>Student reflective summary and goals: Provide a reflective summary of what you have learned and write 1-2 SMART goals to improve your practice for this domain.</p> <p>Formative:</p> <p><i>Summative:</i></p>					
<p>Instructor feedback:</p> <p>Formative:</p> <p><i>Summative:</i></p>					

4. Communication and Collaboration	Formative			Summative	
Indicators	<i>Developing</i>	<i>At Risk</i>	<i>Not Yet Assessed</i>	<i>Pass</i>	<i>Fail</i>
4.1 Able to contribute to positive health care team functioning through consultation, application of group communication theory, principles and group process skills including giving and receiving feedback.					
4.2 Demonstrates the ability to articulate a nursing perspective and the scope of practice of the registered nurse in the context of the health care team.					
4.3 Demonstrates a growth mindset approach to learning including accepting and embracing challenges; seeking and listening to feedback; persevering with difficult tasks; and asking questions to drive learning forward.					
4.4 Identify the appropriate individuals and time frames for communication and escalation of concerns related to any potential safety risks identified.
