

BIOL 030A, Biology 030

5 Credits, 6 hours lecture + 2 hours lab

Topics studied include the scientific method, principles of classification and population ecology, biological macromolecules, DNA and protein synthesis, cells and cell membranes, enzyme structure and function, human body systems (anatomy and physiology) and the concept of homeostasis.

Alberta Education Course Equivalency: Biology 30

Prerequisite: BIOL 025 or equivalent or permission from the Program Chair

Instructor

Patricia Collins
Office CC205 S
780-791-8955
patricia.collins@keyano.ca

Office Hours

Monday	1:00 p.m. – 1:50 p.m.
Tuesday	10:00 a.m. – 10:50 a.m.
Wednesday	10:00 a.m. – 10:50 a.m.
Thursday	1:00 p.m. – 1:50 p.m.
Friday	10:00 a.m. – 10:50 a.m.

Hours of Instruction

Monday Lab	10:00 a.m. – 11:50 a.m.	Room CC234 (dates noted on Calendar, page 4)
Tuesday	11:00 a.m. – 12:50 p.m.	Room S216
Wednesday	3:00 p.m. – 4:50 p.m.	Room S216
Friday	11:00 a.m. – 12:50 p.m.	Room S216

Required Resources

Inquiry into Life by S. S. Mader & M. Windelspecht, 15th Ed., McGraw Hill, ISBN 978-1-259-42616-2
Biology 030 Student Course Package, available in the Keyano Bookstore

Other supplies:

Calculator, basic or scientific

Lab Coat—must be knee-length

Course Outcomes

Upon successful completion of the course, the student shall be able to:

- describe the chemical nature of carbohydrates, lipids, proteins, and nucleic acids, including enzyme action and factors influencing their action.
- describe how genetic information is contained in the sequence of bases in DNA molecules in chromosome, how the DNA molecules replicate themselves, and how genetic information is transcribed into RNA and translated into sequences of amino acids in proteins.
- explain, in quantitative and qualitative terms, how gene pools change over time.
- describe the general characteristics of the three domains of life and the fundamental principles of taxonomy and binomial nomenclature.
- explain population growth patterns and the interactions of individuals within and between populations.
- explain the relationship between developments in imaging technology and the current understanding of cell types and structures, including the functions of cell organelles and membranes in maintaining homeostasis.
- describe the levels of organization of matter in creating human tissues and systems.
- explain the role of the circulatory and defense systems in maintaining an internal equilibrium.
- explain how the human digestive, respiratory, and excretory systems exchange energy and matter with the environment.
- explain the role of the musculoskeletal system in the function of other body systems.
- explain how the nervous system controls physiological processes.
- explain how the endocrine system is a chemical control system that contributes to homeostasis.
- explain how survival of the human species is ensured through reproduction, and how reproduction is regulated by chemical control systems.
- show concern for safety in planning, carrying out and reviewing laboratory activities in a biohazard level II laboratory, referring to WHMIS and consumer product labels.
- work collaboratively in planning and carrying out laboratory investigations and in generating and evaluating scientific ideas.

Evaluation

Daily work & Quizzes	20%
Projects and Lab Report	15%
Midterm Exam (first 2 units)	30%
Lab Exam	5%
Final Exam (last 2 units)	30%

The minimum pre-requisite for progression is 1.7 (refer to Grading System on following page)

Grading System

Descriptor	4.0 Scale	Percent
Excellent	4.0	96 – 100
	4.0	90 – 95
	3.7	85 – 89
Good	3.3	81 – 84
	3.0	77 – 80
	2.7	73 – 76
Satisfactory	2.3	69 – 72
	2.0	65 – 68
Minimum Prerequisite	1.7	60 – 64
Poor	1.3	55 – 59
Minimum Pass	1.0	50 – 54
Failure	0.0	0 – 49

Proposed Schedule of Topics

<u>Units of Study</u>	<u>Text References</u>	<u>Labs</u>
Unit 1 – The Organization of Life		
▪ the study of life	Ch. 1	
▪ the molecules of cells	Ch. 2	
▪ DNA structure and gene expression	Ch. 25	
▪ evolution and diversity	Ch. 27	#1
▪ population and community ecology	Ch. 34	
Unit 2 – The Organization of Cells		
▪ cell structure and function	Ch. 3	#2
▪ membrane structure and function	Ch. 4	
▪ energy and enzymes	Ch. 6	
▪ human organization	Ch. 11	
MIDTERM EXAM		
Unit 3 – The Organization of Human Support Systems		
▪ circulation, blood	Ch. 12	#3
▪ lymphatics and immunity	Ch. 13	
▪ digestion	Ch. 14	
▪ respiration and excretion	Ch. 15, 16	#4
Unit 4 – The Organization of Human Control Systems		
▪ nervous system and senses	Ch. 17, 18	#5
▪ musculoskeletal system	Ch. 19	
▪ endocrine system	Ch. 20	
▪ reproduction and development	Ch. 21	

LAB EXAM & FINAL EXAM

Calendar of Important Events

Dates on the following calendar are tentative; shaded areas indicate no Biology 030 classes.

Week	Monday	Tuesday	Wednesday	Thursday	Friday
1	Sept 3 Labour Day Holiday	4 Orientation Day	5 First day of Biol 030	6	7
2	10 Lab Intro Session Room TBA	11	12	13	14
3	17 Lab #1	18	19	20	21
4	24	25	26	27	28
5	Oct 1 Lab #2	2	3	4	5
6	8 Thanksgiving Day Holiday	9	10	11	12
7	15	16 Nutrition Project Due	17	18	19
8	22 MIDTERM EXAM Room TBA	23	24	25	26
9	29 Lab #3 Room TBA	30	31	Nov 1	2
10	5 Lab #4	6	7	8 READING DAY	9 READING DAY
11	12 Remembrance Day Holiday (in lieu)	13	14	15	16
12	19 Lab #5	20	21	22	23
13	26	27	28	29	30
14	Dec 3 Lab Exam	4	5 Last day of Biol 030	6	7
15	10 EXAMS	11 EXAMS	12 EXAMS	13 EXAMS	14 EXAMS
16	17 EXAMS	18 EXAMS	19	20	21

Please Note:

Date and time allotted to each topic is subject to change.

Final exams are scheduled by the College. Do not book travel until December 19, 2018.

Course Specific Policies

1. **Attendance Policy:** Biology 030 is designed as a **face-to-face course**, so success is improved by being on time and regularly attending. Extended or frequent absences *for any reason cannot* be accommodated and can impact your overall mark. Some suggestions for handling occasional lecture absences include:
 - a. checking the Calendar of Events, News Forum and slide notes by logging into ilearn.keyano.ca
 - b. finding a “classroom buddy” whom you can contact for details regarding what you have missed. *I do not use ilearn to post exact slides and daily homework from the lectures.*
 - c. check your Keyano email frequently, as notices posted to the ilearn forum automatically go there.
2. **Electronic devices policy:** some students find usage of tablets and laptops very helpful during lectures, so you are welcomed to bring these to class. Sounds on all cell phones should be turned off during class and if you need to take an important call, please leave the room to avoid disrupting others. *Using electronic devices to record the class in any way (audio, video, photos, etc.) is not permitted.*
3. **Late Work Policy:** assigned work must be received in hard copy and in person. It will receive
 - a. full marks when received in class, on the due date. ☺
 - b. the earned grade, minus 5%, if received during office hours on the due date.
 - c. the earned grade, minus 20%, for each additional day late, if received during our scheduled class time or during office hours.
 - d. a mark of zero if received after I have returned them. I do not accept work pushed under my office door or left in an office door pouch.
4. **Laboratory Policy:** our laboratories have important safety protocols and procedures which you will learn about during our Laboratory Introduction Session and your WHMIS training. You will need to do the following to complete the lab portion of the course:
 - a. **complete your WHMIS training** through ilearn prior to your first lab. You must score at least 80% on the quiz to receive your certification, which is good for 2 years in Keyano’s science labs.
 - b. **arrive at every lab on time.** It is recommended that you be ready to go 10 minutes prior to the lab. For safety reasons, students who arrive late will NOT be permitted into the lab and *will receive a mark of zero* for all related lab work.
 - c. **be present for every laboratory period** for your lab section. Make-up time or switching lab dates/sections is not an option, due to limited facilities, safety concerns, and staff workloads.
 - d. **complete four labs plus the Lab Final Exam** to receive a course grade greater than 60%. Missing more than one lab for any reason means that you did not complete the lab portion of the course and did not obtain exposure to the prerequisite skills for the next level of biology.
5. **Other Course Policies and Procedures:**
 - a. **work submitted by non-attending students may not be marked.**
 - b. any work showing evidence of copying or plagiarism will receive a mark of zero. (see “Student Rights and Responsibilities” in the Credit Calendar).
 - c. in-class quizzes cannot usually be rewritten, as these are meant to give you immediate feedback on your progress.
 - d. a missed exam may be written at an alternate time only under certain exceptional circumstances, *at the instructor’s discretion*. The instructor must be contacted within 24 hours of the scheduled exam, and documentation (e.g. a doctor’s note) provided.
 - e. the final exam will be written on the date scheduled by the College; otherwise, the procedure for “Deferred Final Examination” in the Credit Calendar is to be followed.

Should you have trouble logging into ilearn.keyano.ca, please contact Keyano College Information and Technology Services (its.helpdesk@keyano.ca or 780-791-4965).

Performance Requirements

Student Responsibilities

It is your responsibility as a student to contact the Office of the Registrar to complete the forms for Withdrawal or Change of Registration, and any other forms. Please refer to the list of important dates as noted in the Academic Schedule in the Keyano College credit calendar.

More specific details are found in the Student Rights and Student Code of Conduct section of the Keyano College credit calendar. It is the responsibility of each student to be aware of the guidelines outlined in the Student Rights and Student Code of Conduct Policies.

Laboratory Safety

In the science laboratories, safety is important.

Students must complete the *WHMIS for Students* online training course on Moodle before entering the science laboratories.

Students must comply with the mandatory laboratory safety rules for this course as provided in the laboratory manual. Failure to do so will result in progressive discipline such as a verbal warning, refused entry into the laboratory, or suspension from the College.

Student Attendance

Class attendance is useful for two reasons. First, class attendance maximizes a student's learning experience. Second, attending class is a good way to keep informed of matters relating to the administration of the course (e.g., the timing of assignments and exams). Ultimately, you are responsible for your own learning and performance in this course.

It is the responsibility of each student to be prepared for all classes. Students who miss classes are responsible for the material covered in those classes and for ensuring that they are prepared for the next class, including the completion of any assignments and / or notes that may be due.

Academic Misconduct

Students are considered to be responsible adults and should adhere to principles of intellectual integrity. Intellectual dishonesty may take many forms, such as:

- Plagiarism or the submission of another person's work as one's own
- The use of unauthorized aids in assignments or examinations (cheating)
- Collusion or the unauthorized collaboration with others in preparing work
- The deliberate misrepresentation of qualifications
- The willful distortion of results or data
- Substitution in an examination by another person
- Handing in the same unchanged work as submitted for another assignment
- Breach of confidentiality.

The consequences for academic misconduct range from a verbal reprimand to expulsion from the College. More specific descriptions and details are found in the Student Rights and Student Code of Conduct section of the Keyano College credit calendar. It is the responsibility of each student to be aware of the guidelines outlined in the Student Rights and Student Code of Conduct Policies.

In order to ensure your understanding of the concept of plagiarism, you must successfully complete the online tutorial found on ilearn.keyano.ca. Then print the certificate, sign it, and show it to each of your instructors. Your course work will not be graded until you show this signed certificate.

Specialized Supports

The Student Academic Support Services (SASS) department: Accessibility Services, Skill Centre and Wellness Services, work together to support student success at Keyano College.

Accessibility Services (CC167) supports student success through group and individualized instruction of learning, study and test taking strategies, and adaptive technologies. Students with documented disabilities, or who suspect a disability, can meet with the Learning Strategists to discuss accommodation of the learning barriers that they may be experiencing. Students who have accessed accommodations in the past are encouraged to visit our office at their earliest opportunity to discuss the availability of accommodations in their current courses. Individual appointments can be made by calling 780-791-8934

Skill Centre (CC119) provides a learning space where students can gather to share ideas, collaborate on projects and get new perspectives on learning from our tutorial staff. Students visiting the centre have access to one-to-one or group tutoring, facilitated study groups, and assistance in academic writing. The Skill Centre's Peer Tutor program provides paid employment opportunities for students who have demonstrated academic success and want to share what they have learned. Tutoring is available free to any students registered at Keyano College on a drop in basis, from 9:00 am to 5:00 pm Monday through Friday. Additional evening hours are subject to tutor availability and are posted in the Skill Centre.

Wellness Services (CC260) offers a caring, inclusive, and respectful environment where students can access free group and individual support to meet academic and life challenges. Mental Health Coordinators offer a safe and confidential environment to seek help with personal concerns. The Mindfulness Room in CC260 is available as a quiet space for students to relax during regular office hours. Wellness Service welcomes students to participate in any of the group sessions offered throughout the academic year addressing such topics as Mindfulness and Text Anxiety. Individual appointments can be made by calling 780-791-8934.

Please watch your Keyano email for workshop announcements from our Student Academic Support Services team.
