Course Outcomes

Upon successful completion of the course, students will be able to:

- Identify some of the foundational issues and ideas of Western culture.
- Display knowledge of some of key ideas and arguments from Socrates, Plato, Aristotle and other Ancient Greek thinkers.
- Apply key theories and principles to contemporary issues.

Evaluation

Students will be evaluated based on the completion of four assignments. These assignments include: a first paper, a second paper, a final exam and on-line discussion topics. Below is a brief description of each assignment, as well as relevant due dates.

On-line Discussions	TBA	15%
First Paper	9 October	20%
Second Paper	27 November	30%
Final Exam	TBA	35%
Total		100%

A grade of C- is required for progression or transfer.

The minimum standard for passing this course is a grade of D (50%).

On-line Discussions

At five points throughout the term I will post discussion topics for students to comment on. The total value of the assignment is 15%, and therefore 3% for every post. Your response does not have to be lengthy – between 200-400 words - but must exhibit understanding, clarity, accuracy, good reflections and focus only on relevant material. Each topic will be available for only week and late submissions will not be accepted.

First Paper

The first term paper should be between 4-6 pages (or 1200-1800 words) and will focus on either Socrates or the philosophers that came before Socrates (i.e. the Presocratics). The general goal will be to summarize the relevant material and then critically engage that material. A topics list will be provided for the first paper. Students must pick their paper topic from this list or otherwise suffer a significant penalty. A basic format for the term paper, that also indicates the method evaluation, will be provided early in the term. The value of the term paper is 20% of the total grade.

Second Paper

The second term paper will focus on either Plato or Aristotle, or possibly comparing the two figures. This paper should be between 8-10 pages (or 2400-3000 words), contain two references from the course materials and one external source. The external source must be a peer reviewed academic source. A topics list will be provided for the second paper. Students must pick their term paper topic from this topic list or otherwise suffer a significant penalty. A basic format for the term paper, that also indicates the method evaluation, will be provided early in the term. The value of the term paper is 30% of the total grade.

Final Exam

The final exam will cover material considered only after the due date of the first paper. This exam will likely include short answer questions and two essay questions, or only essay questions. More details will be offered concerning this exam as it approaches. The value of the final exam is 35% of the total grade.

Performance Requirements**Student Responsibilities**

It is your responsibility as a student to contact the Office of the Registrar to complete the forms for Withdrawal or Change of Registration, and any other forms. Please refer to the list of important dates as noted in the Academic Schedule in the [Keyano College credit calendar](#). The Keyano College credit calendar also has information about Student Rights and Code of Conduct. It is the responsibility of

each student to be aware of the guidelines outlined in the Student Rights and Code of Conduct Policies.

Student Attendance

Class attendance is useful for two reasons. First, class attendance maximizes a student's learning experience. Second, attending class is a good way to keep informed of matters relating to the administration of the course (e.g., the timing of assignments and exams). Ultimately, you are responsible for your own learning and performance in this course.

It is the responsibility of each student to be prepared for all classes. Students who miss classes are responsible for the material covered in those classes and for ensuring that they are prepared for the next class, including the completion of any assignments and notes that may be due.

Academic Misconduct

Students are considered to be responsible adults and should adhere to principles of intellectual integrity. Intellectual dishonesty may take many forms, such as:

- Plagiarism or the submission of another person's work as one's own;
- The use of unauthorized aids in assignments or examinations (cheating);
- Collusion or the unauthorized collaboration with others in preparing work;
- The deliberate misrepresentation of qualifications;
- The willful distortion of results or data;
- Substitution in an examination by another person;
- Handing in the same unchanged work as submitted for another assignment; and
- Breach of confidentiality.

The consequences for academic misconduct range from a verbal reprimand to expulsion from the College. More specific descriptions and details are found in the Student Rights and Code of Conduct section of the Keyano College credit calendar. It is the responsibility of each student to be aware of the guidelines outlined in the Student Rights and Code of Conduct Policies.

In order to ensure your understanding of the concept of plagiarism, you must successfully complete the online tutorial found on ilearn.keyano.ca. Then print the certificate, sign it, and show it to each of your instructors. Your course work may not be graded until you show this signed certificate.
