BUS 237A – Managerial Accounting for Managers

3 Credits, 16 weeks, 3 hours

The use of accounting information by people within organizations to plan and control operations is examined. Various techniques for processing and interpreting information are introduced, emphasizing the development of information systems appropriate for specific decision needs. The impact of accounting information on the behavior of various users within the organization is studied.

(Students may not hold credit for both BUS 233 and BUS 237).

Prerequisite: BUS 110 and BUS 131

Instructor
Henry Dimingu

Office hours
Monday 12:00 – 12:50 PM
Tuesday 2:00 – 2:50 PM
Wednesday 11:00 – 11:50 AM
Thursday 5:30 – 6:30 PM
Friday 11:00 – 11:50 AM

Hours of Instruction

Wednesday 8:00am – 10:50am Room CC282

Required Resources

Texas Instruments BA II Plus or Texas Instruments BA II Plus Professional

Note: these are the only calculators acceptable for use in the exams.

Other Resources

Course Outcomes

Students will be able to:

1. apply the fundamentals of management accounting to business situations
2. explain various cost classification methods
3. classify cost
4. determine cost functions using a variety of methods
5. determine costs using job costing concepts
6. determine costs using process costing concepts
7. allocate costs using various methods

Evaluation

Chapter Assignments ................................................................................................................................... 35%
Midterm Examination ................................................................................................................................. 30%
Final Examination .................................................................................................................................... 35%
Total ........................................................................................................................................................... 100%

A grade of C- is required for progression.

The minimum standard for passing this course is a grade of D (50%).

Failure to achieve a weighted average of 50% on the exams will result in a failing grade (F).
Performance Requirements

1. **Cellular Phones**
   Cellular phones are a distraction to both your fellow students and the class instructor. All cellular phones are to be turned off, or at minimum set on silent mode, prior to the beginning of class. If a student is observed using electronic communication device at any time during class, i.e. sending or reading text messages, or if it rings, they may be asked to leave the classroom for the remainder of the class.

2. **Student Attendance**
   Class attendance is useful for two reasons. First, class attendance maximizes a students’ learning experience. Second, attending class is a good way to keep informed of matters relating the administration of the course (e.g., the timing of assignments and exams). Ultimately, you are responsible for your own learning and performance in this course. It is the responsibility of each student to be prepared for all classes. Students who miss classes are responsible for the material covered in those classes and for ensuring that they are prepared for the next class, including the completion of any assignments and / or notes that may be due.

3. **Academic Misconduct**
   Students are considered to be responsible adults and should adhere to principles of intellectual integrity. Intellectual dishonesty may take many forms, such as:
   - Plagiarism or the submission of another person’s work as one’s own
   - The use of unauthorized aids in assignments or examinations (cheating)
   - Collusion or the unauthorized collaboration with others in preparing work
   - The deliberate misrepresentation of qualifications
   - The wilful distortion of results or data
   - Substitution in an examination by another person
   Penalties for academic offences may range from a verbal reprimand to dismissal from the College, and in certain circumstances may involve legal action.

4. **Accommodation for Students with Disabilities**
   The College will provide reasonable accommodation to students with disabilities in order to promote academic success. If you require accommodation, contact the Learner Assistance Program Office at 780-792-5608 to initiate the process for documenting, assessing, and implementing your individual accommodation needs. In addition, tutoring services are available at the SKILL Centre (Room 119)

Teaching and Learning Methodologies
This class will be taught by lecture. Assignments will be completed using MS-Word, MS-Excel, or other similar software and can be submitted electronically or in hard copy. Learning will be supplemented with optional tutorials.

**NOTES:**
- This course outline may be modified to facilitate unforeseen time constraints.
- Date and time allotted to each topic is subject to change.

**Subject to change due to unforeseen circumstances**
ASSIGNMENTS

NOTE: All assignments will be marked and returned two weeks after the due date provided that all assignments are submitted on time.

ASSIGNMENT GUIDELINES

Assignments are due by the BEGINNING of the class on the date specified, unless arrangements have been made prior to that assignment's due date.

Fifteen (15) marks will be deducted for each day, or part thereof, that an assignment is late. Assignments will not be accepted more than three (3) days late, and a mark of zero will be given for that assignment. All assignments MUST be typed. MS-Excel is the preferred format. Assignments can be submitted electronically or in hard copy.

All assignments must have a title page that clearly indicates:
- Your name,
- The class and section identifiers, and
- The assignment number and / or the due date.

Your name should appear ONLY on the title page; do NOT include it on every page.

Begin each Case or Problem on a new page.

Wherever appropriate, show your work. Marks will be given for the process, not for just the answer. It is important to show ALL your calculations.

Format and presentation count.

ENGLISH, GRAMMAR AND NEATNESS ALWAYS COUNT!

It is understood that some students may work together on their assignments. This is an acceptable practice as long as all students are doing their own work. It is NOT acceptable for two or more students to hand-in assignments that do not represent individual work. A mark of zero will be given for all such assignments.

More specifically, a mark of zero will be given, without exception, for any two or more assignments that are:
- Both printed from the same computer file
- Word for word identical over 1 or more sentences
- Basically identical except for one or two words per sentence
Authorization
This course outline has been reviewed and approved by the Program Chair.
