### Students Intending to Transfer

Students intending to transfer to other institutions require a ‘C-’ as a minimum grade. Transfer information on each course is available at the Alberta Council on Admission and Transfers.

### Performance Requirements:

Course assignments have set due dates to manage both instructor and student workloads. Changes to due dates may occur to adjust overall student workload based on class consensus.

The department performance requirements (revised 2014) regarding student evaluation states that:

- Assignments are to be submitted in class on their respective due dates. If a student is absent from class, the assignment will considered late.
- Individual extensions require students to contact and ask permission from the instructor prior to the assignment due date. In addition, a signed request for extension, including the extenuating circumstances must be submitted at that time or as soon as possible.
- For assignments that are late without written permission:
  - a grade will be deducted for assignments up to 3 days late. e.g. a B assignment will become a B-
  - an additional grade will be deducted for assignments that are 4 – 7 days late; ie: An assignment with a grade of B now becomes a C+
  - no assignments will be accepted after 1 week past the due date.
  - **No assignments will be accepted after the beginning of the class on final date of the course. The final due date for this course is December 11, 2014**
- Since final exams are not a component of ELCC or EA courses and because learning is participatory, attendance and participation are part of the course grade. **80% attendance and word-processed assignments when required by the instructor, are necessary to achieve a final grade of B or higher in ELCC and EA courses.**
- A grade of B on an assignment recognizes that the student has met the basic requirements and knows the applicable content thoroughly enough to be able to apply it. A grade of less than B brings attention to the student that there are gaps in understanding the content and skills required for that assignment. Students should use the criteria for assignments to guide assignment work.
- A grade of B+ or higher acknowledges excellence in quality and quantity of work. The student’s assignment is above the basic requirements.
Students who do not complete all the required work should not expect to pass the course.
