

PECO 3300, Boilers and Pressure Vessels

4 Credits, 4 Weeks

Instructors

Indika Arachchi
 Elizabeth McElman
 Rifat Dyrmishi
 Katembo Kasinyabo
 Sholeh Kazemi
 Rajiv Parashar
 Gallage Silva
 Lorn Wionzek

Office Hours

9:00 am – 4:00 pm

Delivery Method(s):

In Person

Class location: CW – Rm - 123

Contact: 780-791-4955

Email: powerprocess@keyano.ca

Day	Time	Location
Mon – Fri	9:00am - 12:00pm 1:00pm – 4:00pm	CWC Rm - 123

Required Resources

- 3rd Class Power Engineering Learning Materials (Edition 3.5), PanGlobal Training Systems
- CSAB51/B52 Academic Extract Pan Global Training System
- 2018 ASME Boiler & Pressure Vessel Code, An International Guide, Academic Abstract American Society of Mechanical Engineering, Volume 1
- Pen and paper
- Geometry Math Set & 12" or 18" Ruler

- Symbols Template (optional)
- Standard, scientific calculator programmable calculators are not allowed.
- Students attending in-person should have an electronic device that will allow them to access their course material in Moodle.

Assessment Details and Dates

Assessment	Weighting	Course Learning Outcome
Unit Quizzes	10%	CLO 1 - 25
Section Test 5 Nov. 6, 2024	20%	<p>CLO1 Describe common designs, configurations, and circulation patterns for bent-tube watertube boilers and steam generators and explain how boilers are rated.</p> <p>CLO2 Describe the designs, components, firing methods, and operating considerations for some special boilers used in industry.</p> <p>CLO3 Explain the code requirements in general terms and describe construction and assembly methods for the major components of a large boiler.</p> <p>CLO4 Explain the purpose, location, design, and operating conditions for the major heat transfer components of a large watertube boiler or steam generator,</p> <p>CLO5 Describe the design and operation of common external and internal fittings attached to the pressure side of a high-pressure boiler.</p> <p>CLO6 Describe the typical components of fuel supply systems, and describe common burner/furnace designs for gas, oil, and solid fuel fired boilers.</p> <p>CLO7 Explain boiler draft systems and fans, describe the equipment used to remove ash from the flue gas.</p>

Section Test 6 Nov. 20, 2024	20%	CLO8 Explain the components and operation of automatic control systems for boiler level, combustion, steam temperature, and start-up. CLO9 Describe common procedures in the operation and maintenance of high-pressure boilers. CLO10 Discuss internal water treatment methods and systems for the control of scale, corrosion, and carryover, and explain testing and monitoring strategies. CLO11 Explain the purpose, principles, equipment, and monitoring of boiler water pre-treatment processes. CLO12 Describe the designs, principles, components, and operating procedures for common industrial pumps. CLO13 Define terms associated with pumping and perform pump head calculations. CLO 14 Explain the processes and applications of different welding techniques, and describe the testing of welds and procedures. CLO15 Explain pressure vessel design, stresses, and operating considerations.
E -3 Final Exam Nov. 21, 2024	50 %	CLO 1 - 15

Proposed Course Schedule

Week & mode of delivery	Topic(s), Activities, Readings	Graded Assessments (%)	Tentative Due Dates
Week 1 Oct 24 -Nov.1 2024	3B1 Chapters 1 - 5	-Chapter unit quizzes	Due before S7 test (Dec 2, 2024)
Week 2 Nov.4 – Nov. 9 – 29,2024	3B1 – Chapters 6 -7	-Chapter unit quizzes	Due before S7 test (Nov. 06, 2024)
Week 3 Nov12 – Nov15, 2024	3B1 Chapters 8 -13	-Chapter unit quizzes	Due before S6 (Nov. 20, 2024)

Week 4 Nov. 18 – Nov. 22	3B1 Chapters 14 -15	-Chapter unit quizzes -Section 6 Exam 20% (3B1 Chapters 8 to 15) -E exam 50% (3B1 Chapters 1 to 15)	Due before S6 (Nov. 20, 2024) Nov. 20, 2024 Nov. 21, 2024
------------------------------------	---------------------	---	--

Please Note:

- The date and time allotted to each topic are subject to change.
- Students will have access to their Moodle course shells for 15 days following completion of their course.
- Every effort has been made to ensure that the information in this course syllabus is accurate at the time of publication. Keyano College reserves the right to change the course syllabus content if it becomes necessary so that course content remains relevant. Any changes to the course syllabus during the semester will be communicated to students in writing by the instructor in a timely manner. A revised course syllabus will be posted to the LMS.
- A minimum GPA of 1.7 or higher is required for students to remain in good academic standing and progress to the next semester, unless otherwise indicated for a specific program.

Keyano Performance Requirements and Student Services

Student Responsibilities

As a student, it is your responsibility to contact the Office of the Registrar to complete the required forms, including the [Withdrawal/Drop Form](#). All forms are available on the [College website](#). Please refer to the important dates listed in the Academic Schedule in the [Keyano College credit calendar](#) and/or on the [College website](#). It is the responsibility of each student to be aware of the guidelines outlined in the [Student and Academic Policies](#).

Attendance

The Power Engineering program is considered an extension of the workplace in terms of attendance, punctuality, and conduct.

Classes are scheduled from Monday to Friday 9:00 am – 4:00 pm.

- One hour lunch break from 12pm-1pm.
- Attendance will be taken twice a day.

- Students must personally notify their instructor(s) and the Power Engineering Department via email at powerprocess@keyano.ca if they are unable to attend a scheduled class. It is expected that personal appointments will be made outside of scheduled class hours.
- Instructors do not grant excused absences without notification from health services. All doctors' notes to be submitted directly to healthservices@keyano.ca for assessment.
- It is expected that students will manage their time in accordance with the program schedule, policy and procedures and will attend and be punctual for all classes every day.

Student Attendance

Class attendance is helpful for two reasons: First, class attendance maximizes a student's learning experience. Second, attending class is an excellent way to keep informed of matters relating to the course administration (e.g., the timing of assignments and exams). Ultimately, you are responsible for your learning and performance in this course. It is the responsibility of each student to be prepared for all classes. Absent students are responsible for the material covered in those classes, and students must ensure they are ready for their next class, including completing any missed assignments and notes.

Course Evaluation

Midterm exams and term work is to be completed at the time/date indicated in your course syllabus. It is the expectation of the College that students make every reasonable effort to complete all course evaluation, including, quizzes, midterms, and exams, as scheduled. In the event of an emergency, rescheduling of exams and/or extensions are only provided at the discretion of the course instructor. Students should contact the instructor as soon as they are able, to notify them of missing an evaluative component. Instructors will use discretion in deciding whether circumstances justify granting a reschedule and/or extension.

Regular term quizzes, midterms, and exams are not eligible for deferral and/or date extension accommodations. Students with accommodations, please refer to Accessibility Services.

Final Exams are subject to deferral processes, please refer to the current [Keyano College Credit Calendar](#).

Academic Integrity & Misconduct

Academic integrity requires commitment to the values of honesty, trust, fairness, respect, and responsibility. It is expected that students at Keyano College will adhere to these ethical values in all activities related to learning, teaching, research, and service. Any action that contravenes this standard, including misrepresentation, falsification, or deception, undermines the intention and worth of scholarly work and violates the fundamental academic rights of members of our community.

Academic dishonesty takes many forms:

- Plagiarism or the submission of another person's work as their own,
- The use of unauthorized aids in assignments or examinations (cheating),
- Using Artificial Intelligence (AI) to complete coursework (without instructor approval),
- Collusion or the unauthorized collaboration with others in preparing work,
- The deliberate misrepresentation of qualifications,
- The willful distortion of results or data,
- Substitution in an examination by another person,
- Submitting unchanged work for another assignment, and
- Breach of confidentiality.

In all academic work, the ideas and contributions of others must be appropriately acknowledged and work that is presented as original must be, in fact, original. Using an AI-content generator (such as ChatGPT) to complete coursework without proper attribution or authorization is a form of academic dishonesty. If you are unsure about whether something may be plagiarism or academic dishonesty, please contact your instructor to discuss the issue.

The consequences for academic misconduct range from a verbal reprimand to expulsion from the College. More specific descriptions and details are found in the *Student & Academic Policies* section of the [Keyano College credit calendar](#). It is the responsibility of each student to be aware of the guidelines outlined in the Student Rights, Academic Integrity, and Non-Academic Misconduct Policies.

To ensure your understanding of plagiarism and academic integrity, you are required to complete the online [Understanding Academic Integrity tutorial \(https://keyano.libwizard.com/f/academic-integrity-tutorial\)](https://keyano.libwizard.com/f/academic-integrity-tutorial) and submit the certificate of completion to your instructor(s).

Online Learning

Technology and internet connectivity will impact your online learning experience. You may be required to watch online videos, take online quizzes, or participate in live online classes. Live/virtual courses will be hosted in Microsoft Teams or Zoom. For all course delivery types, you will access your course outline, course syllabus and course resources on Keyano's learning management system: Moodle (iLearn). Login in using your [Keyano username and password](#). Keyano College operates in a Windows-based environment and having access to the correct tools for online learning is essential.

Computer System Requirements

Keyano College software are Windows based.

Minimum Requirements and Recommended Upgrades for Windows (preferred system) and Apple devices

These minimum standards are required for a Windows computer/laptop (OS 10 or 11) and a Macintosh (OS 10.14 or above).

1. Windows 10 Operating System or above.
2. 4GB of RAM. Recommended upgrade to 8GB of RAM.
3. 10GB+ available hard drive storage space. Note installing Microsoft Office 365 requires 3GB of available hard drive space.
 - a. Install the Microsoft Office 365 suite (~3GB) *
4. Microphone, webcam, and speakers (All modern laptops have these three accessories built-in). However, a headset or earbuds with a microphone is also recommended.
5. Windows has built-in anti-virus/malware software. It is essential to install system updates to keep your device secured regularly.

*[Microsoft Office 365](#) is free to Keyano students.

Tablets, iPads, and Chromebooks are **not** recommended: They may not be compatible with your programs such as lockdown browsers used for assessments and/or Microsoft Office 365.

Computer Software

Students have access to Microsoft Office 365 and Read & Write for free using Keyano credentials.

See [Recommended Technology](#) for more information.

Recording of Lectures and Intellectual Property

Students may only record a lecture if explicit permission is provided by the instructor or Accessibility Services. Even if students have permission to record a lecture or lecture materials, students may not share, distribute, or publish any of the lectures or course materials; this includes any recordings, slides, instructor notes, etc., on any platform. Thus, no student is allowed to share, distribute, publish, or sell course-related content without permission. It is important to recognize that the Canadian Copyright Act contains provisions for intellectual property. The [Academic Integrity Policy](#) provides additional information on Keyano College's expectations from students as members of the intellectual community.

ITS Helpdesk

If you have issues with your student account, you can contact the ITS Helpdesk by emailing its.helpdesk@keyano.ca or calling 780-791-4965.

Specialized Supports

Keyano College is committed to Keyano students and their academic success. There is a variety of student support available at Keyano. All student services are available during Keyano business hours: Monday to Friday, 8:30 a.m. to 4:30 p.m. The College is closed on statutory holidays. If you require support outside of regular business hours, please inform the support service team, and they will do their best to accommodate your needs.

Accessibility Services provides accommodations for students living with disabilities. Students with documented disabilities or who suspect a disability can register to discuss their current learning barriers and possible accommodations. Students are required to request accommodations for each term. Please note that requesting accommodations is a process and requires time to arrange. Contact the department as soon as you know you may require accommodations to ensure timely implementation. For accessibility supports, adaptive technology, learning strategies and disability-based funding, please register with Accessibility Services by emailing wellness.services@keyano.ca, or visiting www.wellnessxp.net/wellness/, or scanning this qr code below.

Wellness Services offers a caring, inclusive, and respectful environment where students can access free group and individual support to meet academic and life challenges. Mental Health Coordinators provide a safe and confidential environment for you to seek help with personal concerns. Our Wellness Navigator offers support with finding basic needs such as housing, financial and nutritional support, and outside referrals when needed. Wellness Services welcomes students to participate in group sessions that address topics including mindfulness and test anxiety throughout the academic year. Individual

appointments can be made by emailing wellness.services@keyano.ca, or visiting www.wellnessxp.net/wellness/, or scanning this qr code below.

The **Library** provides students with research, information, and educational technology services and spaces as they engage in their studies. The Library is located at CC-166 or www.keyano.ca/library. Library staff are available to help students online and in person throughout the semester. Librarians offer individual and small group consultations booked using the online [Book A Librarian calendar](#). The library also provides virtual research and subject guides to help you with your studies. Find the guide that supports your course-related research by viewing the complete list of online [Subject Guides](#). To start your research and access citation guides (APA, MLA, Chicago, or IEEE), visit the [Research Help page](#). The library's collections (including print and online materials) are searchable using [EDS \(EBSCO Discovery Service\)](#) on www.keyano.ca/library/find. The library offers a Loanable Technology collection to support students accessing and using technology. For an up-to-date list of technology available for borrowing, visit the library's [Loanable Technology webpage](#). For a detailed list of library resources and services, go to www.keyano.ca/library. For all inquiries, please email askthelibrary@keyano.ca or [chat with us online](#).

The **Academic Success Centre (ASC)** provides free academic support services to registered students, such as tutoring, writing support, facilitated study groups, workshops, and study space. Academic Content Specialists are available in Business, Mathematics, Science, English, Humanities, Power Engineering, Upgrading/College Prep, and more. Peer Tutors are available to provide peer academic support to students in all college programs, such as Nursing, Business, Education, Environmental Science, among others. Students are encouraged to visit the Academic Success Centre at CC-119 to discuss strategies for academic success. Specialists in the Academic Success Centre also work with students to develop academic success plans, time management skills, study strategies, and homework plans. For additional information, please email Academic.Success@keyano.ca

Work Integrated Learning (WIL) is located in the ASC in CC-119. Career Services WIL staff assist students with their program-related WIL and co-op placements, provide resume advice, and support with using the GradLeaders platform. Additionally, they coordinate several career fairs for students throughout the academic year and host coop and resume workshops for students. Students can reach WIL by emailing: WIL@keyano.ca or by visiting them in person.

Course Syllabus Template Version 1.0

Every effort has been made to ensure that the information in this course syllabus is accurate at the time of publication. Keyano College reserves the right to change the course syllabus content if it becomes necessary so that course content remains relevant. Any changes to the course syllabus during the semester will be communicated to students in writing by the instructor in a timely manner. A revised course syllabus will be posted to the LMS.
