MATH 10-3A, Mathematics 10-3  
5 credits, 5 hours lecture  

The primary focus of this course is the development of spatial sense through direct and indirect measurement. Using imperial and metric units, fractions and decimals, students will describe the relationship among, and solve problems involving, length, area, volume, capacity, mass, temperature, angles, triangles and polygons. Students will also solve problems that require manipulation and application of formulas related to perimeter, area, primary trigonometric ratios, Pythagorean theorem, income and unit pricing.

Prerequisite: AFM 009 or permission from the Program Chair  
Alberta Education Course Equivalency: Math 10-3

Instructor

Lisa Turner  
205K

lisa.turner@keyano.ca

Office Hours

Tuesday  12:00 – 1:50  
Thursday  9:00 – 10:50  
Friday  9:00 – 9:50

Hours of Instruction

Tuesday  8:00 – 9:50 in Room CC219  
Thursday  11:00 – 12:50 in Room CC219  
Friday  10:00 – 10:50 in Room CC219

Required Resources

Scientific calculator (Casio fx-260 solar is preferred), geometry set, paper, pens, pencils and erasers are required.

Course Outcomes

Upon successful completion of the course, the student shall be able to:

- Demonstrate an understanding of the Système International (SI) by:
  - describing the relationships of the units for length, area, volume, capacity, mass and temperature
  - applying strategies to demonstrate an understanding of the imperial system
- Describe the relationships of the units for length, area, volume, capacity, mass and temperature
- Compare the American and British imperial units for capacity.
- Apply strategies to convert imperial units to SI units and convert SI units to imperial units.
• Solve and verify problems that involve SI and imperial linear measurements, including decimal and fractional measurements.
• Solve problems that involve SI and imperial area measurements of regular, composite and irregular 2-D shapes and 3-D objects, including decimal and fractional measurements, and verify the solutions.
• Analyze puzzles and games that involve spatial reasoning, using problem-solving strategies.
• Demonstrate an understanding of the Pythagorean theorem by:
  o identifying situations that involve right triangles
  o verifying the formula
  o applying the formula
  o solving problems
• Demonstrate an understanding of similarity of convex polygons, including regular and irregular polygons.
• Demonstrate an understanding of primary trigonometric ratios (sine, cosine, tangent) by:
  o applying similarity to right triangles
  o generalizing patterns from similar right triangles
  o applying the primary trigonometric ratios
  o solving problems
• Solve problems that involve parallel, perpendicular and transversal lines, and pairs of angles formed between them.
• Demonstrate an understanding of angles, including acute, right, obtuse, straight and reflex, by:
  o drawing
  o replicating and constructing
  o bisecting
  o solving problems
• Solve problems that involve unit pricing and currency exchange, using proportional reasoning.
• Demonstrate an understanding of income, including:
  o wages
  o salary
  o contracts
  o commissions
  o piecework
to calculate gross pay and net pay
• Solve problems that require the manipulation and application of formulas related to:
  o perimeter
  o area
  o Pythagorean theorem
  o primary trigonometric ratios
  o income

Evaluation

Assignments 25%
Quizzes/Tests 25%
Unit Projects 15%
Final Exam 35%
Total 100%

The minimum pre-requisite for progression is 1.7 (refer to Grading System on following page)

Proposed Schedule of Topics (see calendar below)

<table>
<thead>
<tr>
<th>Proposed Time Frame</th>
<th>Chapter and Chapter Sections</th>
</tr>
</thead>
</table>
| 2 weeks             | Chapter 1: Unit Pricing and Currency  
|                     | • 1.1: Proportional Reasoning  
|                     | • 1.2: Unit Price  
|                     | • 1.3: Setting Price  
|                     | • 1.4: On Sale  
|                     | • 1.5: Currency Exchange  
|                     | **CHAPTER 1 TEST**  
| 2 weeks             | Chapter 2: Earning an Income  
|                     | • 2.1: Wages and Salaries  
|                     | • 2.2: Alternate Ways to Earn Money  
|                     | • 2.3: Additional Earnings  
|                     | • 2.4: Deductions and Net Pay  
|                     | **CHAPTER 2 TEST**  
| 3 weeks             | Chapter 3: Length, Area, and Volume  
|                     | • 3.1: Systems of Measurement  
|                     | • 3.2: Converting Measurement  
|                     | • 3.3: Surface Area  
|                     | • 3.4: Volume  
|                     | **CHAPTER 3 TEST**  
| 2 weeks             | Chapter 4: Mass, Temperature, and Volume  
|                     | • 4.1: Temperature Conversion  
|                     | • 4.2: Mass in the Imperial System  
|                     | • 4.3: Mass in the Systeme Internationale  
|                     | • 4.4: Making Conversions  
|                     | **CHAPTER 4 TEST**  
| 2 weeks             | Chapter 5: Angles and Parallel Lines  
|                     | • 5.1: Measuring, Drawing, and Estimating Angles  
|                     | • 5.3: Non-Parallel Lines and Transversals  
|                     | • 5.4: Parallel Lines and Transversals  
|                     | **CHAPTER 5 TEST**  
| 2 weeks             | Chapter 7: Trigonometry of Right Angles  
|                     | • 7.1: The Pythagorean Theorem  
|                     | • 7.2: The Sine Ratio  
|                     | • 7.3: The Cosine Ratio  
|                     | • 7.4: The Tangent Ratio  
|                     | • 7.5: Finding Angles and Solving Right Triangles  
|                     | **CHAPTER 7 TEST**  

Final Exam Review  
Last Day of Class: Tuesday, April 18, 2017  
Final Exam Period April 20-24, 2017

Please Note:

Date and time allotted to each topic is subject to change.

Final exams are scheduled by the College. Do not book travel until April 25, 2017
Performance Requirements

Student Responsibilities

It is your responsibility as a student to contact the Office of the Registrar to complete the forms for Withdrawal or Change of Registration, and any other forms. Please refer to the list of important dates as noted in the Academic Schedule in the Keyano College Credit Calendar.

More specific details are found in the Student Rights and Student Code of Conduct section of the Keyano College credit calendar. It is the responsibility of each student to be aware of the guidelines outlined in the Student Rights and Student Code of Conduct Policies.

Student Attendance

Class attendance is useful for two reasons. First, class attendance maximizes a student’s learning experience. Second, attending class is a good way to keep informed of matters relating to the administration of the course (e.g., the timing of assignments and exams). Ultimately, you are responsible for your own learning and performance in this course.

It is the responsibility of each student to be prepared for all classes. Students who miss classes are responsible for the material covered in those classes and for ensuring that they are prepared for the next class, including the completion of any assignments and/or notes that may be due.

Academic Misconduct

Students are considered to be responsible adults and should adhere to principles of intellectual integrity. Intellectual dishonesty may take many forms, such as:

- Plagiarism or the submission of another person’s work as one’s own
- The use of unauthorized aids in assignments or examinations (cheating)
- Collusion or the unauthorized collaboration with others in preparing work
- The deliberate misrepresentation of qualifications
- The willful distortion of results or data
- Substitution in an examination by another person
- Handing in the same unchanged work as submitted for another assignment

The consequences for academic misconduct range from a verbal reprimand to expulsion from the College. More specific descriptions and details are found in the Student Rights and Student Code of Conduct section of the Keyano College credit calendar. It is the responsibility of each student to be aware of the guidelines outlined in the Student Rights and Student Code of Conduct Policies.

In order to ensure your understanding of the concept of plagiarism, you must successfully complete the online tutorial found on ilearn.keyano.ca. Then print the certificate, sign it, and show it to each of your instructors. Your course work will not be graded until you show this signed certificate.
Specialized Supports

Counselling and Accessibility Services
Counselling Services provides a wide range of specialized counselling services to prospective and registered students, including personal, career and academic counselling.

SKILL Centre
The SKILL Centre is a learning space in the Clearwater Campus at Keyano College where students can gather to share ideas, collaborate on projects and get new perspectives on learning from our tutorial staff.

The SKILL Centre, through a variety of delivery methods, provides assistance in skill development to Keyano students. Assistance is provided by instructors, staff and student tutors. Individuals wishing to improve their mathematics, writing, grammar, study, or other skills, can take advantage of this unique service.
