NURSING 394: Nursing in Context C1

COURSE OUTLINE

CALENDAR STATEMENT:

NURS 394 Nursing in Context C1
Continuation of NURS 390 with increasing situational complexity. Prerequisites: NURS 390, (391 or 395).

COURSE HOURS:      LEC: 9      SEM: 36      LAB: 18

COURSE DESCRIPTION:

Through the process of Context-Based Learning, the goal of this course is to continue development of concepts of health, health promotion, professional nursing, and human responses across the lifespan. The focus remains on care of clients (individuals, families, groups) in institutions and community experiencing acute and complex variances in health.

COURSE OBJECTIVES

Levels of Independence

In evaluating objectives, the following levels of independence will be used:

With assistance: The student requires direction and information.

With minimal assistance: The student requires occasional direction and information.

With guidance: The student requires clarification, prompting and confirmation.

With minimal guidance: The student requires occasional clarification, prompting and confirmation.

Independently: The student works mostly on his or her own and seeks information, clarification and consultation as appropriate.

Direction: Tutor tells the student what to do, about what steps to take.

Information: Tutor tells the student specifics about a concept or topic.

Clarification: Tutor, through questioning and feedback assists the student to state their information in a different and clearer way, often with more details. The student asks questions to increase their understanding; questions asked demonstrate a sound knowledge base.
**Prompting:** Tutor provides the student with a cue that answer is incomplete or incorrect and how to resolve the lack of information. A prompt is broader than a hint. Prompting is generally used to add breadth or depth.

**Confirmation:** Tutor provides positive feedback for correct information and direction provided by the student.

**Consultation:** The student provides tutor with information and/or direction and asks specific questions about the information or direction which the instructor confirms.

**Occasional:** Indicates that input is provided by tutor now and then.

**OBJECTIVES:**

Overarching statement: Students are responsible to familiarize themselves with *Graduate Competencies and Year-End Outcomes (with Cross Reference to courses) 2014-2015*. Attention must be given to the competencies that are identified as being relevant to NURS 394.

1. Demonstrate independently self-directed learning, critical thinking, and group process skills in utilizing context-based learning, in all learning activities.

2. Apply, independently, the nursing process to Learning Package clients experiencing acute and complex variances in health.

3. Demonstrate an increasing knowledge of nursing as a discipline and as a profession.

4. Demonstrate, independently, the ability to use professional and/or therapeutic communication skills in all learning activities.

5. Demonstrate knowledge of primary health care, health promotion, and disease prevention in clients experiencing more acute and complex variances in health across the life span.

6. Apply advanced assessment and nursing skills in all learning activities.

7. Demonstrate understanding of the concepts of restoration, and rehabilitation, as applied to clients experiencing more acute and complex variances in health.

8. Integrate the knowledge generated from working through the course learning packages, and be able to apply this knowledge to other situations.

9. Integrate the knowledge and skills acquired in all learning environments and be able to apply them to other situations.
NURSING PROGRAM POLICIES

Please refer to the Keyano College Nursing Program Student Handbook for specific Nursing Program Policies and to Keyano College Credit Calendar for general College policies and the Students Rights, Responsibilities, Student Misconduct and Discipline and the Student Appeal Process.

Late Assignments

Assignments not submitted on the day and time specified will incur a 5% deduction per day including weekends. This will be applied each day until the assignment is received by the instructor. Students can submit assignments by e-mail on weekends, but must provide a paper copy on the first day following the weekend.

Disability Support Services: Learner Assistance Program

If you have a documented disability or you think that you would benefit from some assistance from a Disabilities Counselor, please call or visit the Disability Supports Office 780-792-5608 to book an appointment (across from the library). Services and accommodations are intended to assist you in your program of study, while maintaining the academic standards of Keyano College. We can be of assistance to you in disclosing your disability to your instructor, providing accommodations, and supporting your overall success at Keyano College.

Specialized Supports and Duty to Accommodate

Specialized Support and Duty to Accommodate are aligned with the office of Disability Support Services: Learner Assistance Program (LAP) guided by federal and provincial human rights legislation and defined by a number of Keyano College policies. Keyano College is obligated by legislation to provide disability-related accommodations to students with identified disabilities to the point of undue hardship.

Withdrawal Dates for Classes:

Students may drop a course without academic or financial penalty within the first 1/8 of the course start date. Students can withdraw from a course, with a grade of “W” (no GPA calculation) up to the half-way point of the course. If students withdraw after the half-way point, a grade of “WF” (calculated as 0 in GPA).
Examinations:

Please consult the 2014-2015 Keyano College Calendar for the policy statement on examinations.

Quizzes will be offered online through Moodle. A device that enables internet access will be required for exam completion. Students who do not have access to such devices should notify the tutor at least one week in advance of the first quiz. Quizzes will be completed after class on the day scheduled in the timetable. The time and venue are flexible and will be discussed at orientation.

The final exam will also be offered online through Moodle. A classroom and specific time will be scheduled and the option to write in another venue will be discussed at the start of the course.

Tutor Office Hours:

Fridays from 0900 – 1100h (or as scheduled in the timetable)

Contact Information:

Nursing Department Room: 187C
doris.roth@keyano.ca
(780) 791-8919
REQUIRED LEARNING EXPERIENCES

1. **CBL Seminar**

   Students will collaboratively work through the following five Learning Packages. Please refer to Nursing 394 timetable for the weekly scheduled tutorial sessions. CBL seminars will be structured as Day One and Day Two for each learning package.

   1. Home Care – (Part 1)
   2. Home Care – (Part 2)
   3. Epidemiology
   4. Trauma Scenario
   5. The Parsons Family

2. **Lab Activities**

   Students will collaboratively participate each week in the following laboratory sessions as per Nursing 394 timetable. Lab attendance, preparedness, and participation are all included in CBL marking. Please refer to each respective lab manual for details.

   1. Cognitive Impairment
   2. Home Care
   3. Epidemiology
   4. Central Nervous System, Increased Intracranial Pressure
   5. Blood Administration

**PLEASE NOTE:**

Attendance is an expectation for **all** seminar, lab and fixed resource sessions. Refer to APPENDIX A and B for tutor and student roles in CBL and lab.

*In order to successfully complete this course, **all** evaluation components must be completed and submitted.*

*All work must be original in this course. Cutting and pasting from work completed in a previous course is considered academic misconduct/plagiarism. Please see the University of Alberta Collaborative Baccalaureate Nursing program: Keyano College Student Handbook Nursing Program policies 2014 - 2015 for further clarification.*
Marking for course evaluation components will be based on the Keyano College Percentage Grading system, (APPENDIX C), the Marking Guide (APPENDIX D), and the Tutorial Assessment Guide (APPENDIX E). The passing grade for this course is 60% or C-.

OVERVIEW OF COURSE EVALUATION

1. Quizzes (5% each) 25%
2. Scholarly Paper 35%
3. Final Exam 40%
4. CBL/TAG Pass/Fail

1. **Quiz’s 25% total (each 5%).** Each multiple choice quiz will cover content from a Learning Package and related lab(s). Each quiz will be held after the conclusion of ‘Day Two’ of the Learning Package and will be online through Moodle. 30 minutes will be provided to complete the 20 question quiz.

   - **Quiz # 1 – October 30**th - will cover content from the Cognitive Impairment lab and Home Care – The Morning Learning Package
   - **Quiz # 2 – November 6**th - will cover content from the Home Care Lab and Home Care – The Afternoon Learning Package
   - **Quiz # 3 – November 13**th - will cover content from the Epidemiology and Pandemic Planning Lab and the Epidemiology Learning Package
   - **Quiz # 4 – November 27**th - will cover content from the Central Nervous System and Increased Intracranial Pressure Lab and the Trauma Scenario
   - **Quiz # 5 – December 4**th - will cover content from the Blood Administration Lab and the Parsons Family Learning Package.
2. Scholarly Paper Assignment (35%) – Concept Analysis Paper

**due Monday, November 17th by 1200h.**

**Grading:**

Marking for this assignment will be based on the Scholarly Paper Marking guide as noted in APPENDIX D.

**Purpose:**

A concept analysis is an exercise designed to make the student as familiar as possible with a concept. A concept is usually one or two words that convey meaning, understanding, and feelings between or among individuals within a discipline. Concepts in nursing can be applied to clients, the nurse-client relationship, nursing practice, and the environments where nursing practice occurs. A concept analysis is the first step in communicating meanings, understandings, and feelings.

This assignment is intended to give students an opportunity to explore a particular nursing practice concept in more depth and consider how it may be applied to their future nursing practice. The concept of caring has been closely associated with nursing and this assignment will provide an opportunity for the student to explore caring in more depth.

Review and synthesize the literature related to the concept of caring and address the questions in the guidelines below.

**Length:** Paper must not exceed 6 pages in length, excluding the title and reference pages and must be in APA format.

**Guidelines for Paper:**

Discussion of the concept:

- What is the definition of caring?
- Search the literature for journal articles and books related to caring to get a sense of the beliefs and thoughts of others in the discipline regarding caring.
- Is there agreement among authors about a definition?
- Begin the analysis paper with a short introductory paragraph about why caring is important in nursing.
- Can caring be measured in the empirical world?
- Are there related concepts? What are they?
- How is caring related to health and/or illness?
- How is the application of caring demonstrated in clinical practice? Provide an example of caring in one of the settings from our learning packages in N394.
- How will this new knowledge/understanding of the concept impact your future nursing care?
When submitting papers, students will attach photocopies of the reference papers used. All reference papers will be returned to the students.

Requests for extensions of this assignment must be discussed with the instructor prior to the due date.

3. Final Exam (40%) Tuesday, December 9th (0900 – 1130h)

Please see timetable for room number

This exam will be cumulative. Format for exam will be multiple choice and the exam will be online in Moodle. The venue may be flexible based on student choice.

4. CBL Seminar/ Lab Evaluation (Pass/Fail)

Monday, December 8th (0900-1200).

Room: 187 C

CBL evaluations will be held on in the tutor’s office. A sign-up sheet will be circulated. A mark will be determined according to the Tutorial Assessment Guide (TAG) criteria as outlined in APPENDIX E.

Self-reflections should provide a detailed reflection of how students met the course objectives. This reflection should include examples and evidence from the literature and demonstrate professional and personal growth throughout the course. Ensure the reflection includes how behaviors expected of a professional were demonstrated. The student is to submit their completed self-evaluation of their seminar/lab performance including a proposed mark for their final CBL evaluation on the Friday prior to the final evaluation.

The Code of Ethics for Registered Nurses (CNA, 2002) guides nursing practice and must be reflected in all aspects of CBL and Lab components of Nursing 394 and evidenced in the TAG. See APPENDIX F and the U of A Collaborative Baccalaureate Nursing Program: Keyano College student handbook Nursing Program Policies for detailed descriptions of the Code of Ethics.

The tutor and the student will review the student’s self-evaluation together. The tutor will finalize the student’s mark for CBL based upon the TAG of Students in Seminar/lab found in APPENDIX E.
It is suggested that each student begin this self-reflective seminar evaluation at the beginning of the semester. Writing these evaluation entries will take self-discipline. Therefore, it is recommended that the student schedule a time each week, as soon as possible after the tutorial to write their self-reflective evaluation entries.

**STUDENTS MUST RECEIVE A MINIMUM PASS MARK OF C- IN THE CBL SEMINAR/LAB EVALUATION IN ORDER TO PASS NURSING 394. STUDENTS WHO ARE UNSATISFACTORY IN MEETING THE CBL CRITERIA WILL RECEIVE A MIDTERM EVALUATION THAT CLEARLY DELINEATES AREAS FOR DEVELOPMENT.**

**PLEASE NOTE:** To facilitate the progression of a student at risk of failing his/her CBL seminar/lab evaluation, a midterm evaluation will be completed and a remedial plan will be developed by the student and tutor.

**REQUIRED TEXTS**

- All textbooks acquired in previous years
- Resources available on Moodle

**RECOMMENDED TEXTS - (On reserve in the library)**

**WEB SITE RESOURCES**

Canada Health Act (Available at [http://www.hc-sc.gc.ca/hcs-sss/medi-assur/cha-lcs/index_e.html](http://www.hc-sc.gc.ca/hcs-sss/medi-assur/cha-lcs/index_e.html))

APPENDIX A

Context Based Learning (CBL) Faculty and Student Roles in Seminar Setting

Faculty Role

1. In order to facilitate the CBL principle that learning is deliberate, focused, and outcome-oriented, the tutor:
   a. understands relationship between learning situations under exploration by students and overall goals of the context-based learning curriculum.
   b. serves as a learning process guide rather than a content expert for students oriented towards learning focused context-based learning outcomes.

2. In order to facilitate the CBL principle that students are active, involved, independent learners, the tutor:
   a. guides students through active learning process by asking questions rather than giving instructions thereby stimulating students to:
      i. discover what it is they do not know or understand.
      ii. determine what they need to learn.
      iii. determine how they will go about meeting their learning needs.
      iv. seek credible resources that adequately address their learning needs.
      v. synthesize information in relation to the demands of the context-based situation.
   b. encourages students to be critical thinkers through a facilitative process that involves first modeling, then coaching and eventually mostly observing the students in action.

3. In order to facilitate the CBL principle that learning is deliberate, deep, reflective, critical activity, the tutor:
   a. challenges rather than confirms all conclusions that students reach, not just those that may be wrong (e.g. "Are there other possibilities you may not have thought of?"; "Let’s stop and review our hypothesis again.").
   b. encourages students to question their own ideas and hypotheses (e.g., "Do the rest of you agree with that?"; "What is the supporting evidence for that idea?"; "What do you mean?"; "How do you know that’s true?"; "Can you please explain that to us?" or, "Why do you want to know that?").
   c. probes even after students feel they have learned (e.g. "What does that do for you?", "What does it mean in terms of your ideas about the situation?").

4. In order to support the development of constructive group dynamics, the tutor:
   a. expects and feels comfortable with the various phases of group development.
   b. uses facilitative communication skills that support task and maintenance group functions.
   c. fosters discussion patterns in group that involve all students.
   d. encourages debate and disagreement, among group members.
   e. supports decision-making process that has the support of all group members.
   f. addresses dysfunctional group behaviors with entire group, constructively exploring how to reduce the negative effects on group progress.
   g. models constructive ways of giving others feedback about their contributions to group process.

5. In order to facilitate evaluation of student seminar performance, the tutor:
a. reviews and clarifies overall program goals with those of each context-based learning situation.
b. helps student’s articulate personal learning objectives and the means by which to evaluate whether and how well each of those objectives is attained.
c. provides constructive feedback to students throughout learning process identifying both what has been as well as what remains to be achieved by student.
d. prepares an evaluative report for each student indicating whether the expected seminar learning outcomes for a given term have been achieved.

6. Respecting learner needs that are both individually unique and common to groups of students, the tutor:
   a. helps students realize that each one comes to the group with valuable skills and experiences.
   b. listens to student concerns with open verbal/non-verbal communication behaviors.
   c. supports students on a personal level, building them up not putting them down.
   d. encourages during periods of frustration thus encouraging students to believe in their capabilities.
   e. is open to variation as well as commonalities in life experience; accepts differences in opinion.
   f. attends to group process in seminars with interest and enthusiasm so that students feel what they are experiencing matters.
   g. is flexible in scheduling time to meet with students outside of usual seminar times.

7. In order to create a climate of trust in a seminar setting, the tutor:
   a. both models and supports individual risk-taking behavior reflecting moves from comfortable to new positions and roles.
   b. respects the behaviors and roles assumed by group members.
   c. asks group for permission before assuming leadership role in group process work.
   d. follows words, promises and commitments through with actions.
   e. models willingness and ability to identify personal strengths and weaknesses that influence group functioning.

**Student Role**

1. Students take an active, independent approach to their learning by:
   a. determining what they need to pursue as learning issues within the Undergraduate Nursing CBL Curriculum.
   b. directing their own inquiry through group process work.

2. Students are committed to the group and willingly share their intellect, knowledge and expertise as demonstrated by their:
   a. attending scheduled CBL group sessions as a requirement of the undergraduate program.
   b. being prepared for group sessions by having completed their work assignment previously determined by their group.

3. Students share equally in group roles and responsibilities that facilitate their learning through group process work by:
   a. helping group members to focus on given situations through reading it aloud.
b. recording the learning issues, assumptions and connections made by group (i.e., hypotheses) as well as other public lists of data, graphic representations important to their learning.

c. moderating group sessions and keeping track of learning issues and responsibilities for next session.

d. keeping track of the time used during group session to ensure the various and necessary activities of CBL group work occur.

4. Students follow through with the analysis and decision-making process associated with CBL situations specifically by:

a. identifying learning issues within a given situation.

b. determining group member assignments needed for pursuing the learning issues.

c. individually or collectively completing assignments as planned by group.

d. sharing what has been learned, interpreted and synthesized with entire group.

e. participating in the end-of-session review of each CBL situation.

f. encouraging and supporting participation of other group members during group sessions.

g. appraising credibility of information shared in group sessions according to sources utilized and cited by group members.

h. providing feedback about individual and collective group member performance to group as a whole.

i. being open to receiving feedback about own performance and contribution to group process from fellow group members.

5. Students demonstrate respect and responsibility for the resources utilized in pursuing learning issues both in relation to their own needs as well as the needs of other students by:

a. taking only the resources and materials that are necessary for learning issues being pursued.

b. returning resources and materials promptly when finished using them.

APPENDIX B

Context-Based Learning (CBL) Faculty and Student Roles in Lab Setting

Faculty Role

In the lab setting, faculty continue to guide students through an active learning process as outlined in the document Context-Based Learning (CBL) Seminar Tutor Role by:

1. asking questions that stimulate students to assess critique and appraise what they do and do not know or understand regarding the necessary skills needed in nursing practice.

2. assisting the students to consider all skills learning in relation to:
   a. their underlying rationale.
   b. research-based evidence for their development.
   c. the identification and application of principles to their practice.
   d. encouraging the students to seek resources that support the development of their skills.

3. acting as a role model in skill development.
4. evaluating students’ abilities to perform skills.
5. supporting the ongoing development of constructive group dynamics.
6. respecting the individual learning styles and needs of the students.
7. creating and fostering a climate of trust.
8. being respectful and responsible for the resources utilized in teaching lab skills by helping their students leave the lab in a prepared state for use by other students.

Student Role

In the lab setting, students continue to take an active, independent approach to their learning as outlined in the Context-Based Learning (CBL) Seminar Student Role and Tutorial Assessment Guide of Students in CBL document which include:

1. being committed to the lab group and willingly sharing their intellect, knowledge and expertise.
2. attending scheduled lab sessions as a requirement of the undergraduate program.
3. coming to each lab prepared, having completed required readings and viewed required audiovisual resources.
4. seeking resources that will support their learning lab skills.
5. asking questions which contribute to their ability to assess critique and appraise what they do and do not know or understand about skill development.
6. exploring and discussing the underlying rationale for skills learned.
7. applying research-based evidence to the development of their skills.
8. participating in the ongoing development of constructive group dynamics in their lab group.
9. respecting and being responsible for the resources utilized in learning skills by leaving the lab in a prepared state for use by students who follow them in the lab setting.

PASS
Meets the objectives at a “Level of Independence” required in the Graduate Competencies and Year-End Outcomes for Year 3.

FAIL
Does not meet the objectives at a “Level of Independence” required in the Graduate Competencies and Year-End Outcomes for Year 3.

Please Note:
Nursing 394 is based on PASS/FAIL performance. A PASS must be achieved in all three categories found in the Tutorial Assessment Guide in order to be successful in the course.
Please refer to the course syllabus for the course objectives.
