PATHOPHYSIOLOGY FOR HEALTH CARE PROFESSIONALS

COURSE OUTLINE

CALENDAR STATEMENT

PATHOPHYSIOLOGY FOR HEALTH CARE PROFESSIONALS * Semester II

The course teaches the science of disease required by health professionals to plan and implement sound interventions that promote, maintain, or restore client health and well-being. The conceptual approach provides the student with a knowledge base of pathology to apply to client health alterations in subsequent courses and work experiences.

Prerequisites: PN 100, PN 101

COURSE HOURS

TOTAL HOURS: 45          LECTURE: 45          CREDITS: 3

COURSE DESCRIPTION

The Pathophysiology course focuses on the pathological processes underlying disease and disorders. The student is provided with a comprehensive foundation for understanding the phenomena that produce alterations in human physiologic function across the life span. Content in the course includes common disease entities as examples of the pathological processes. Each pathological process will be explained as a concept and illustrated by typical diseases and disorders. Diseases will be discussed in terms of manifestations, etiology and complications. The diagnosis and management of disease processes associated with pathophysiological dysfunction/alterations is also introduced. This is a theory course.

TUTOR INFORMATION

Instructor: Gregory Stewart
Phone (Office): 780 791 8920
e-mail: gregory.stewart@keyano.ca
Office Hours: Monday 0900 – 1100hr
GENERAL LEARNING OUTCOMES

Upon successful completion of this course, the learner will:

1. Describe common pathologic processes resulting in alteration of the structure and function of the body.

2. Correlate alterations in the physiologic function of the body to clinical presentation of signs and symptoms.

3. Identify common disease and disorders associated with pathophysiological processes.

4. Apply pathophysiologic principles to the interpretation and treatment of symptoms and disease processes.

5. Identify and prioritize actual and potential problems associated with the pathological process.

6. Describe common diagnostic assessments of pathological processes.

7. Identify medical treatments for common pathological processes.

Instructional Methods

- This course uses a variety of teaching/learning methods including: discussion, experiential exercises, learner presentations, role-plays, case studies, lectures, reflection, lab demonstration and practice, and group activities. These course activities provide the opportunity for learners to learn with and from others who are undergoing a similar learning experience.

- The course emphasizes pre-class preparation, participation in interactive classes, and post-class reflection and review. The learner is expected to take an active part in class discussions and take responsibility for his/her own learning. The instructor’s role is to facilitate learning.
PRACTICAL NURSING PROGRAM POLICIES

Please refer to Keyano College Practical Nurse Handbook for specific Practical Nursing Program policies and to Keyano College Calendar for general College policies.

Please review the Keyano College Nursing Program Policy on Clinical Attire, which is outlined in the student handbook. The following are required items for clinical: nametag, health centre ID, watch, penlight, black pen, bandage scissors and stethoscope.

LATE POLICY FOR ASSIGNMENTS

All assignments are to be passed in at the time and place they are due. Please see timetable. Extensions on assignments may be granted and must be negotiated with the tutor prior to the due date and with a date specified for late submissions. If prior arrangements are not made, a penalty of a letter grade for each working day that an assignment is submitted after the due date will be deducted from the final grade i.e. an assignment graded at B would receive an adjusted grade of B- if handed in one day late; if two days late, the grade is adjusted to C+ etc.

SPECIALIZED SUPPORTS & DUTY TO ACCOMMODATE

DISABILITY SUPPORT SERVICES: LEARNER ASSISTANCE PROGRAM

If you have a documented disability or you think that you would benefit from some assistance from a Disabilities Counselor, please call or visit the Disability Supports Office 780-792-5608 to book an appointment (across from the library). Services and accommodations are intended to assist you in your program of study, while maintaining the academic standards of Keyano College. We can be of assistance to you in disclosing your disability to your instructor, providing accommodations, and supporting your overall success at Keyano College.

SPECIALIZED SUPPORTS AND DUTY TO ACCOMMODATE

Specialized Support and Duty to Accommodate are aligned with the office of Disability Support Services: Learner Assistance Program (LAP) guided by federal and provincial human rights legislation and defined by a number of Keyano College policies. Keyano College is obligated by legislation to provide disability-related accommodations to students with identified disabilities to the point of undue hardship.
OVERVIEW OF LEARNING EXPERIENCES

This course consists of the following units:

**Unit 1:** Cell Adaptation, Proliferation, and Differentiation
   Topic 1.1: Introduction to Pathophysiology
   Topic 1.2: Cell Injury, Adaptation, and Death
   Topic 1.3: Alterations in Cellular Proliferation and Differentiation
   Topic 1.4: Alterations in Genetics and Development
   Topic 1.5: Alterations in Blood Cells

**Unit 2:** Alterations in Defence Mechanisms
   Topic 2.1: Alterations in Skin Integrity
   Topic 2.2: Inflammatory Process – Tissue Reaction to Injury
   Topic 2.3: Tissue Repair – Recovering From Injury
   Topic 2.4: Infectious Processes
   Topic 2.5: Alterations in Immunity

**Unit 3:** Alterations in Communication and Regulation
   Topic 3.1: Alterations in Hormonal Messaging and Effects on Regulatory Functioning
   Topic 3.2: Alterations in Neuronal Transmission and Effects on Regulatory Functioning
   Topic 3.3: Alterations in Fluid, Electrolyte, and Acid-Base Balance

**Unit 4:** Alterations in Communication, Regulation, and Patency
   Topic 4.1: Alterations in Ventilation and Diffusion
   Topic 4.2: Alterations in Perfusion

**Unit 5:** Alterations in Communication, Regulation, Patency, and Motility

**Unit 6:** Alterations in Communication, Regulation, Filtration, Transport, and Nutrient Metabolism
   Topic 6.1: Alterations in Filtration
   Topic 6.2: Alterations in Absorption, Secretion, and Nutrient Metabolism

**Unit 7:** Application of Combined Pathophysiologic Concepts

**Unit 8:** Alterations in Body Support and Movement

**Unit 9:** Alterations in Sensory Function and Pain Perception

OVERVIEW OF COURSE ASSESSMENT

Assessments

To complete course requirements for PN105 Pathophysiology for Health-Care Professions, you will be required to complete two exams and a final exam.

Distribution of Marks

Passing Level and Grading Scale

A student must achieve a minimum grade of 1.7 (C-) or 60% to receive credit for PN 105 Pathophysiology for Health-Care Professions.

Students must complete all assignments and examinations to receive a final course grade. Students will not be allowed to rewrite the assignments or exam to raise their course grade.

Refer to the Practical Nurse Handbook and Keyano College Calendar for information regarding grading scale, extensions, writing exams, supplemental exams and other program/College standard practices.

Important Additional Information

**Note to all students:** It is the student’s responsibility to retain course outlines for possible future use in support of applications for transfer credit to other educational institutions.
