**PRACTICAL NURSING IV:
FOCUSED PRACTICE
COURSE OUTLINE**

CALENDAR STATEMENT

PRACTICAL NURSING IV: FOCUSED PRACTICE * Semester IV

Nursing Practice IV: Focused Practice provides the learner with opportunities to put into practice the knowledge and skills learned in the practical nurse program in caring for clients in a specialized practice setting.

Pre-requisites: Completion of all first and second year courses prior to PN 207

Co-requisite: None

COURSE HOURS

TOTAL HOURS: 116

CREDITS: 3

COURSE DESCRIPTION

This course provides the opportunity for the learner to integrate program knowledge, skills, attitudes, and judgments into the role of the practical nurse in a specialized practice environment. The learner will apply accumulated knowledge and skills in a clinical experience involving three weeks of instructor-supervised or perceptored clinical practice in one of the following settings: community, rural, maternity, pediatric, or mental health.

TUTOR INFORMATION

Instructor: Barb Reitz
Phone (Office) 780 792 8920
e-mail: barb.reitz@keyano.ca
Office hours: by appointment

GENERAL LEARNING OUTCOMES

Upon successful completion of this course, the learner will meet the following outcomes:

1. Integrate the nursing metaparadigm, nursing theory, and related knowledge into nursing practice to provide safe, holistic, compassionate, and competent care for the client.
2. Apply nursing process, effective problem-solving, and critical thinking to make appropriate clinical judgments within a practice setting.
3. Demonstrate the ethical, legal, and professional and moral responsibility and accountability for own actions in a practice setting.
4. Communicate appropriately, effectively, and accurately with the client and the interdisciplinary team.
5. Collaborate with the interdisciplinary team to provide nursing care in a practice setting.
6. Maintain and promote personal and client safety, adhering to best practice guidelines.
7. Apply principles of teaching and learning to the client.
8. Advocate on behalf of the client to promote health and well-being.
9. Integrate reflective practice into professional growth and continuing competence.
10. Apply leadership principles personally and professionally.

Instructional Methods

This is a supervised clinical practice course. The course activities will include nursing care of assigned clients in the acute-care setting. Other activities may include nursing rounds (conferences), professional development activities, and discussions. These activities provide the opportunity for learners to learn with and from others in the nursing practice setting.

The course emphasizes pre-clinical preparation, participation in nursing care of clients, and post-clinical reflection and review. You are expected to take an active part in clinical discussions and take responsibility for your own learning. The instructor's role is to supervise nursing practice and to facilitate learning.

PRACTICAL NURSING PROGRAM POLICIES

Please refer to Keyano College Practical Nurse Handbook for specific Practical Nursing Program policies and to Keyano College Calendar for general College policies.

Please review the Keyano College Nursing Program Policy on Clinical Attire, which is outlined in the student handbook. The following are required items for clinical: nametag, health centre ID, watch, penlight, black pen, bandage scissors and stethoscope.

LATE POLICY FOR ASSIGNMENTS

All assignments are to be passed in at the time and place they are due. Please see timetable. Extensions on assignments may be granted and must be negotiated with the tutor prior to the due date and with a date specified for late submissions. If prior arrangements are not made, a penalty of a letter grade for each working day that an assignment is submitted after the due date will be deducted from the final grade i.e. an assignment graded at B would receive an adjusted grade of B- if handed in one day late; if two days late, the grade is adjusted to C+ etc.

SPECIALIZED SUPPORTS & DUTY TO ACCOMMODATE

DISABILITY SUPPORT SERVICES: LEARNER ASSISTANCE PROGRAM

If you have a documented disability or you think that you would benefit from some assistance from a Disabilities Counselor, please call or visit the Disability Supports Office 780-792-5608 to book an appointment (across from the library). Services and accommodations are intended to assist you in your program of study, while maintaining the academic standards of Keyano College. We can be of assistance to you in disclosing your disability to your instructor, providing accommodations, and supporting your overall success at Keyano College.

SPECIALIZED SUPPORTS AND DUTY TO ACCOMMODATE

Specialized Support and Duty to Accommodate are aligned with the office of Disability Support Services: Learner Assistance Program (LAP) guided by federal and provincial human rights legislation and defined by a number of Keyano College policies. Keyano College is obligated by legislation to provide disability-related accommodations to students with identified disabilities to the point of undue hardship.

OVERVIEW OF LEARNING EXPERIENCES

CLINICAL PRACTICE

In order to pass PN 207: FOCUSED PRACTICE, students must demonstrate safe, knowledgeable, ethical nursing practice, professional behavior, and complete the specified learning experiences. See APPENDIX A for Clinical Standard Practices

Components of this continuous 8-week experience will include:

1. A scheduled nursing practice experience each week in the clinical setting. Clinical practice will take place beginning on March 21, 2013 and ending April 12, 2013. Clinical rotation will include eight (8) and twelve (12) hour day shifts each week. (Please see timetable). Client research will take place on the day prior to the scheduled shift. Please see timetable for dates and times.
2. Research will prepare the student to provide safe, knowledgeable, ethical care and is essential to successful completion of this course.

Complete research on assigned client(s) including a detailed plan of care consisting of nursing diagnosis, goals, interventions and rationale for intervention. If caring for a client for more than one day, update the research and nursing care plan on each successive day with the client. Plan of Care for clients are to be submitted to the tutor for review following pre-conferences. See **APPENXIX B** for Student Experience Guidelines for Instructor Supervised Practice

If you are not prepared for clinical practice, you will be asked to leave the unit, this includes not having a plan of care completed on your assigned client(s).

3. Perform initial and ongoing assessments on all assigned clients.
4. Document client care on draft for review by the tutor prior to documenting in the client's chart.
5. Completer Reflective Journaling Assignment to demonstrate written reflection of nursing practice.

If a student is absent from the clinical setting due to illness the following must occur:

- The student will contact their assigned unit;
- The student will contact The Nursing Office at 791-4889 and leave a message;
- The individual instructor will advise students if and how they wish to be contacted, including the number; and
- The Instructor may advise the student to contact the Keyano College Nurse at 791-4808.

Students not following these requirements will be considered absent without leave and abandoning their patients this may result in clinical failure

If the student is absent from the clinical setting for other reasons:

- The student will contact their assigned unit;
- The student will contact the Nursing Office at 791-4889 and leave a message; and
- The individual instructor will advise students if and how they wish to be contacted, including the number.

OVERVIEW OF COURSE ASSESSMENT

Clinical practice courses are graded as **pass** or **fail**.

To receive credit in Nursing Practice IV: Focused Practice, the learner must complete all course requirements which include reflective journalling and a passing grade on the final evaluation. A passing grade means that the student was able to satisfactorily meet all expectations in the course. Course credit will not be given if only parts of the course have been completed.

DISTRIBUTION OF MARKS

WRITTEN ASSIGNMENTS		
Reflective Journalling	Written reflection of nursing practice	Pass/Fail
CLINICAL PRACTICE EVALUATION		
	Integration of nursing knowledge and application of nursing skills. Learner must satisfactorily meet all evaluation expectations.	Pass/Fail
	Total	Pass/Fail

PASSING LEVEL AND GRADING SCALE

This is a nursing practice course. A learner must be proficient in the integration of nursing theory and application of nursing skills in a practice setting.

Learners must receive a **pass** grade on the written assignment and successfully demonstrate nursing skills in the nursing practice setting to receive a passing grade.

Refer to the Practical Nurse Program Handbook for information regarding grading scale, extensions, and other program standard practices.

Important Additional Information

All students must have the following prior to attending any nursing practice course:

- Up-to-date immunizations
- Criminal Record Check completed within the last 3 months
- Basic Life Support for Health Care Providers course (BLS) recognized by the Alberta Heart and Stroke Foundation or CPR Level C or Level 3 First Aid
- Some colleges may also require a WHMIS certificate. (See your Student Handbook for details)

***Note to all learners:** It is the learner's responsibility to retain course outlines for possible future use in support of applications for transfer credit to other educational institutions.*

COURSE ASSESSMENT

1. Reflective Practice

Self-reflection is a requirement for continuing competency of the practical nurse. The purpose of this assignment is to assist you to reflect on your nursing practice. Through reflective practice you will demonstrate self-reflection by recognizing your own learning, goals, strengths and areas for improvement.

You will submit reflections in each of the nursing practice courses. These submissions are a requirement of this course and must achieve a satisfactory rating to receive a **pass**. Use the following to guide your reflective journalling. Attached is a marking guide that will be used by your instructor to evaluate your submissions.

Reflective Journalling

Due Date: To be determined by instructor

GUIDELINES

- The reflective journal will be reviewed by the instructor. Due dates for submission will be determined by your instructor.
- The journal may be handwritten but must be legible.
- Submission format may vary based on instructor preference or clinical group decision (i.e., may be done through online discussions, group discussion, with the use of concept maps or traditional journalling).
- The journal must be completed as assigned in order to receive a **pass** grade in the course.

- See **APPENDIX C** for marking guide.

REFLECTIVE PRACTICE CRITERIA

Description

Choose a significant situation or event that occurred this week in clinical practice.

- Describe this situation in detail, relating it to your own practice.
- What was going on? What happened?
- How did the client, family or staff respond? (Use only initials to maintain confidentiality.)
- What was your role in this situation?

Reflection

Reflect on the situation as it happened.

- What were your feelings and thoughts about the situation?
- What did you do? How did you feel about what you did? Why?
- What were the important elements of the event? What preceded the event and what followed it?

Analysis

Analyze the situation.

- What went well? What did you find difficult?
- Integrate what is known from nursing theory and related courses. Use your nursing textbooks or other professional resource to interpret this situation and expand your understanding of the event.
- Identify the course learning outcomes that apply to this situation. What have you learned?
- How does this experience compare to other situations in which you have been involved?

Evaluation

Evaluate the situation.

- What did you learn from this situation?
- What would you do differently in the future?
- What should you be aware of if this situation occurs again?

Your instructor will read the entries and write comments to help focus and guide you throughout your practice. The entries will remain confidential.

2.Student Evaluation

Due Date:

Student Assessment/Evaluation

Assessment of your performance is based on satisfactory preparatory work and successful delivery of client care. Throughout these clinical practice courses, your instructor will provide you with both verbal feedback and written feedback (anecdotal notes) on your clinical performance. Feedback will be provided on a weekly basis. Feedback may be provided more frequently if required. These notes are used to support comments and performance ratings of your midterm and final evaluations.

Student concerns should be discussed directly with the instructor if the outcome is unsatisfactory. If necessary, concerns can be submitted in writing to the program supervisor, and a copy must be given to the instructor.

The clinical practice evaluation will be completed by your instructor. You will be given a written midterm and final evaluation. Each evaluation will be discussed with you during a meeting with your instructor. See **APPENXIX D** for Expectations of Students

Students must consistently meet minimal safe practice. Examples of minimal safe practice are as follows:

The student:

- Is punctual for all scheduled clinical activities (pre/post conference, report)
- Can discuss assigned client's pathophysiology and related symptoms in his/her own words
- Correctly selects a high-priority nursing diagnosis and discusses at least two interventions that are supported by evidence-based practice
- Demonstrates correct medication and intravenous administration including calculations and safe dosages; can communicate actions, side effects, and nursing implications
- Demonstrates beginning psychomotor skills appropriate to practice setting
- Maintains asepsis and standard precautions
- Reports to appropriate parties (RN, instructor, preceptor) regarding all client care and changes in client condition
- Documents in a timely manner and according to current nursing practice within the practice setting
- See **APPENDIX E** for marking guide.

CLPNA Competencies

- A: Nursing Knowledge
- B: Nursing Process
- C: Safety
- D: Communication and Interpersonal Skills
- E: Nursing Practice
- F: Respiratory care
- G: Surgical Nursing
- H: Orthopedic Nursing
- I: Neurological/Neurovascular Nursing
- J: Cardiovascular Nursing
- K: Maternal/Newborn Care
- L: Pediatrics
- M: Mental Health Nursing
- N: Emergency Nursing
- P: Palliative Care
- R: Community Health
- T: Occupational Health and Safety
- U: Medication Administration
- V: Infusion Therapy
- W: Professionalism
- X: Licensed Practical Nurse Role

The following CLPNA competencies are learned during the Nursing Practice I course:
Refer to www.clpna.com for references

Appendix A
FOCUSED PRACTICE
Clinical Standard Practices

Clinical Standard Practices

Overview

It is your responsibility to adhere to the following standard practices for the Practical Nurse Program. Please familiarize yourself with them and refer to them throughout the program.

DRESS CODE STANDARDS

You are expected to adhere to the dress code standards for the clinical area as outlined in the Practical Nurse Program Handbook.

ATTENDANCE

You must report illness or reasons for inability to attend clinical practice to your instructor/preceptor prior to your assigned shift. You are expected to adhere to the attendance standards for the clinical area as outlined in the Practical Nurse Program Handbook.

DOCUMENTATION OF CLIENT CARE

Documentation must follow agency policies, and instructor and unit expectations where you are practising.

ENSURING CLIENT SAFETY

If your actions result in an actual or potential violation of client safety, you may be removed from the clinical area and may fail the course. Your progress in the program will be outlined in a learning improvement plan. Examples of safety violations are included in the Practical Nurse Program Handbook.

LEARNING IMPROVEMENT PLAN

If you are experiencing difficulty meeting the identified course outcomes and expected behaviours at any time, a case conference involving you, your instructor, and a counsellor may be called. A learning improvement plan will be initiated as per the Practical Nurse Program Handbook.

A learning improvement plan includes:

- Identification of problem
- A specific action plan required if you are to overcome the problem

- A timeframe for the problem to be resolved and evaluated

REPORTING WHEN LEAVING THE UNIT

When leaving the unit for breaks or at the end of the shift, you must report your leaving to the buddy nurse (a staff member also assigned to care for the client) and your instructor in an instructor-supervised practicum.

WORKPLACE INJURY

If you are injured or exposed to a blood-borne pathogen on the premises of the college or at a clinical agency, it is your responsibility to inform your instructor/preceptor as soon as possible. The protocol of the agency where the injury occurs will be followed. As reporting forms are time sensitive, it is essential that the injury be reported as soon as possible. Your instructor or preceptor will have the necessary WCB and Blood-Borne Pathogen forms. You may also be required to complete agency-specific reporting forms.

Appendix B
FOCUSED PRACTICE
Student Experience Guidelines for Instructor-Supervised Practice

STUDENT EXPERIENCE GUIDELINES FOR INSTRUCTOR/PRECEPTORED-SUPERVISED PRACTICE

Attendance

You are expected to make every effort to be present and on time for every clinical shift. Missed days may make it impossible for the instructor to complete an evaluation of your performance. If the instructor is unable to evaluate your performance due to poor attendance, you will not pass the course.

Preparation for Clinical Assignments

Client safety is the highest priority. You are expected to come prepared for each clinical practice experience. If you are unprepared, you will be removed from the clinical area and marked absent for that clinical shift. A learning improvement plan will be put in place outlining the expectations and importance of preparing for assignments, and to address implications to professionalism, legalities, and client safety.

You are required to conduct your research in the clinical area on your assigned client prior to start of shift. You are responsible for reviewing the nursing skills that you will be required to perform during client care.

For all Nursing Practice courses, client research must be prepared in writing and brought with you to the clinical area.

Assignments/Team Responsibilities

- Research your assigned clients.
- Using the nursing process and the nursing metaparadigm, provide holistic, competent nursing care to assigned clients.
- Inform the instructor/preceptor of learning needs.
- Seek learning experiences and opportunities to practise nursing skills, within appropriate scope of practice.
- Ask the instructor/preceptor to directly supervise any nursing skills.
- Modify nursing skills according to agency policies and procedures as required.
- Perform only those nursing skills that are within the student role of the Practical Nurse Program.
- Consult with the instructor/preceptor when unsure of any aspects of client care.

- Report any significant changes in the client's condition to appropriate staff and your clinical instructor/preceptor.
- Document pertinent client information according to unit policy and routine.
- Collaborate with members of the health-care team in providing client care.

Performance of Skills

You are expected to adhere to the skill performance standards for the clinical area as outlined in the Practical Nurse Program Handbook.

Documentation of Client Care

At the beginning of the clinical practice course, you may be required to submit a draft of your documentation to your clinical instructor to check before it is entered on the client's record. Documentation of all medications that you have administered is a requirement.

Pre- and Post-Conferences and Nursing Rounds

You are expected to attend all pre- and post-conferences and nursing rounds. A pre-conference is a meeting between the instructor and students at the start of the clinical shift. At this time, you will be able to address questions and concerns, and identify when the instructor will be available to supervise skills or provide assistance with client care. The instructor will check the research sheets, nursing care plans, and organizational plans. The instructor must ensure that you are prepared to provide safe client care.

A post-conference, or nursing rounds, is a meeting of the instructor and the students, usually at the end of the clinical shift. It provides an opportunity to reflect on your practice by reviewing the day's activities, asking questions, discussing concerns, dealing with feelings and accomplishments, discussing progress, identifying and sharing significant learning, reorganizing or clarifying the next day's plans, and/or attending in-service sessions.

Appendix C
FOCUSED PRACTICE
Marking Guide for Reflective Practice

Assignment 1: Reflective Practice Marking Guide

Student: _____

Date: _____

Instructor: _____

CRITERIA	SATISFACTORY PERFORMANCE	UNSATISFACTORY PERFORMANCE (REQUIRES FURTHER DEVELOPMENT, EXPLORATION)
Description <ul style="list-style-type: none"> • The event/situation is described, in detail, related to your practice 		
Reflection <ul style="list-style-type: none"> • Identified how you felt during the situation • Discussed actions taken • Reflected on the events leading up to and after the situation 		
Analysis <ul style="list-style-type: none"> • Identified positive and negative aspects • Supported analysis with nursing knowledge • Identified learning outcomes related to the situation/learning • Included comparison to other situations 		
Evaluation <ul style="list-style-type: none"> • Described what you learned from this situation • Discussed application to future practice 		
Presentation <ul style="list-style-type: none"> • Organized, legible • Spelling and grammar appropriate 		

Comments:

EXPECTATIONS OF STUDENTS

Knowledge

1. Consistently prepares for client care:
 - a. Client research
 - b. Care plan
 - c. Organizational plan
2. Actively involves the client in the plan of care to promote independence
3. Demonstrates a holistic view of diverse clients by incorporating spiritual, physiological, psychosocial, cultural, and developmental aspects to care
4. Applies knowledge of the nursing metaparadigm in the development of nursing care plans
5. Applies research and evidenced-based care in the practice setting

Nursing Process and Critical Thinking

1. Performs and documents assessments of the client
2. Prioritizes needs of the client
3. Formulates nursing diagnoses from the assessment data
4. Collaborates with client and family to identify SMART goals related to each nursing diagnosis
5. Performs nursing interventions and provides rationale for each nursing intervention professionally, safely, accurately, and in a timely manner
6. Evaluates client's progress towards established goals, and modifies care plan and nursing care appropriately
7. Questions and analyzes data to make sound decisions
8. Adapts to changes in health, client and/or environment

Professionalism

1. Maintains a professional appearance and behaviour
2. Consistently meets attendance, punctuality, and notification requirements
3. Maintains confidentiality
4. Takes accountability and responsibility for actions and decisions
5. Adheres to the following:
 - a. Scope of practice
 - b. Standards of Practice

- c. CLPNA competencies
- d. Code of Ethics
- e. Agency policy

Communication

1. Follows verbal and/or written direction
2. Reports pertinent data to appropriate persons following established lines of communication
3. Charts pertinent data sequentially, legibly, accurately, and completely; follows agency policy; uses correct medical terminology
4. Contributes to group discussions and team conferences in a positive manner
5. Utilizes therapeutic communication skills with clients at all stages of the life cycle
6. Accepts and utilizes constructive feedback
7. Takes action to resolve conflicts, using appropriate communication skills
8. Plans, implements, and evaluates client/family teaching based on client needs and learning abilities

Safety

1. Recognizes, reports, and manages situations in which the safety and well-being of client, self, coworkers and others are compromised
2. Verifies and clarifies orders, decisions or actions made by interdisciplinary team members
3. Seeks clarification and assistance as needed

Reflective Practice

1. Identifies and shares learning needs (instructor, preceptor, supervisor, peers)
2. Accesses learning resources applicable to learning needs
3. Implements actions to improve performance
4. Demonstrates reflective practice, verbally and/or in writing

Leadership

1. Demonstrates leadership abilities, including the ability to:
 - a. Problem-solve and take appropriate action
 - b. Delegate when appropriate
 - c. Advocate for the client and profession
 - d. Contribute to the interdisciplinary team
 - e. Influence positive change
2. Demonstrate the attributes of a leader, including
 - a. Competence
 - b. Integrity

- c. Ethics
- d. Honesty and respect for others
