SOCY 212, Classical Social Theory
3 credits, 15 weeks, 3 hours

Course Description

This course provides an introduction to Classical Social Theory. This course asks questions like: What is sociology? What is Society? Can Sociology cause change? What are the possibilities for social science research? This course begins with the premise that sociology was born out of questions concerning both the scientific possibilities and political possibilities of social science research.

Performance Requirements

Grade Description & Notification

All efforts will be made to return graded assignments promptly. Final papers/projects/exams will not be returned and will be kept by the University Studies. If you complete an assignment (i.e., present, hand in a paper), you cannot—after the fact—claim that extenuating circumstances affected your work and request a grade adjustment. If you are having difficulty with an assignment or there are serious extenuating circumstances affecting your work, please speak with me as soon as possible. You may not come and ask me to raise your grade because you need a certain GPA for a certain program, or any other such reason. If you would like me to re-consider a grade, during the term only, you must present me with logical, carefully thought out reasons for this re-consideration. I reserve the right to lower grades if I am asked to re-mark something. Once the term is over, you must go through the correct appeals procedure. This is listed online in the College Calendar.

At the end of the term, I reserve the right to raise the final grade of a student whose overall performance in the class merits more than the numerical calculations suggest. I will only reconsider grades if you present a logical and coherent argument. If you come to me and just ask for a higher grade, I reserve the right to lower your grade. Here are some examples of “arguments” that will result in a grade reduction:
1. The statement: “I think my paper deserves a better grade” without accompanying logical justification.
2. Because you need to get into an MBA program, or graduate school, or medicine, or you need to maintain a scholarship. Or, quite simply, you have to graduate. If any of these things apply, then you should be thinking about them from the first week of class, and working appropriately.
3. Because you think you worked harder than your classmate, whose grade was better than yours.
4. “My grade is just half a point away from the next grade point…”

Email

Please be considerate when using email to communicate with your instructor.
• Questions are best addressed in person – following class, or during office hours.
• Email is a poor substitute for actual instructor/student conversations.
• If you are implored to send an email you need to include the course number and your full name (as you are known by the college) in the subject heading. If you do not include the course number and your name in the subject line I will not respond.

Professional Conduct

• Please be aware that I respect that everyone’s time is precious and valuable, please afford me the same courtesy.
• Instead of preoccupying your mind with the question – “how do I get an ‘A’?” Instead, ask yourself how can I work to expand my knowledge, perspective and outlook on the world?

Student Attendance

Class attendance is useful for two reasons. First, class attendance maximizes a student’s learning experience. Second, attending class is a good way to keep informed of matters relating to the administration of the course (e.g., the timing of assignments and exams). Ultimately, you are responsible for your own learning and performance in this course.

It is the responsibility of each student to be prepared for all classes. Students who miss classes are responsible for the material covered in those classes and for ensuring that they are prepared for the next class, including the completion of any assignments and / or notes that may be due.
Academic Misconduct

Students are considered to be responsible adults and should adhere to principles of intellectual integrity. Intellectual dishonesty may take many forms, such as:

- Plagiarism or the submission of another person’s work as one’s own
- The use of unauthorized aids in assignments or examinations (cheating)
- Collusion or the unauthorized collaboration with others in preparing work
- The deliberate misrepresentation of qualifications
- The willful distortion of results or data
- Substitution in an examination by another person
- Handing in the same unchanged work as submitted for another assignment
- Breach of confidentiality.

The consequences for academic misconduct range from a verbal reprimand to expulsion from the College. More specific descriptions and details are found in the Student Rights and Student Code of Conduct section of the Keyano College 2015-2016 credit calendar. It is the responsibility of each student to be aware of the guidelines outlined in the Student Rights and Student Code of Conduct Policies.

Note* This course requires completion and proof of certificate from https://www.indiana.edu/~istd/, the link is on Moodle/iLearn on the left hand side right next to the WHMIS certificate.

Specialized Supports

Counselling and Disability Services

Counselling Services provides a wide range of specialized counselling services to prospective and registered students, including personal, career and academic counselling.

SKILL Centre

The SKILL Centre is a learning space in the Clearwater Campus at Keyano College where students can gather to share ideas, collaborate on projects and get new perspectives on learning from our tutorial staff.

The SKILL Centre, through a variety of delivery methods, provides assistance in skill development to Keyano students. Assistance is provided by instructors, staff and student tutors. Individuals wishing to improve their mathematics, writing, grammar, study, or other skills, can take advantage of this unique service.
