

Course Outline

College and Career Preparation

Winter, 2019

MATH 10-3, Mathematics 10-3

5 credits, 150 hours

The primary focus of this course is the development of spatial sense through direct and indirect measurement. Using imperial and metric units, fractions and decimals, students will describe the relationship among, and solve problems involving, length, area, volume, capacity, mass, temperature, angles, triangles and polygons, Students will also solve problems that require manipulation and application of formulas related to perimeter, area, primary trigonometric ratios, Pythagorean theorem, income and unit pricing.

Alberta Education Course Equivalency: Math 10-3 Prerequisite: AFM 009 or permission from the Program Chair

Instructor

Instructor Name: Nancy Fitzgerald Office location: CC – 205H Phone number: 780 747 4629 Nancy_fitzgerald@keyano.ca

Office Hours

Monday – Friday 3:00 – 5:00 p.m

Hours of Instruction

Monday - Friday 9:00 – 12:00 p.m. (BL 254)

Required Resources

<u>Complete Canadian GED Preparation Handbook</u>, Steck-Vaughn, ISBN-10: 978-0774716314 <u>MathWorks 10 Workbook</u>, Pacific Educational Press, ISBN 978-1-89576-651-6 Scientific calculator (Casio fx-260 solar is preferred),

Course Outcomes

Upon successful completion of the course, the student shall be able to:

- Demonstrate an understanding of the Système International (SI) by:
 - describing the relationships of the units for length, area, volume, capacity, mass and temperature
 - o applying strategies to demonstrate an understanding of the imperial system
 - Describe the relationships of the units for length, area, volume, capacity, mass and temperature
 - Compare the American and British imperial units for capacity.
 - Apply strategies to convert imperial units to SI units and convert SI units to imperial units.
 - Solve and verify problems that involve SI and imperial linear measurements, including decimal and fractional measurements.
- Solve problems that involve SI and imperial area measurements of regular, composite and irregular 2-D shapes and 3-D objects, including decimal and fractional measurements, and verify the solutions.
- Analyze puzzles and games that involve spatial reasoning, using problem-solving strategies.
- Demonstrate an understanding of the Pythagorean theorem by:

Math 10-3

- o identifying situations that involve right triangles
- o verifying the formula
- o applying the formula
- solving problems
- Demonstrate an understanding of similarity of convex polygons, including regular and irregular polygons.
- Demonstrate an understanding of primary trigonometric ratios (sine, cosine, tangent) by:
 - applying similarity to right triangles
 - o generalizing patterns from similar right triangles
 - o applying the primary trigonometric ratios
 - o solving problems
- Solve problems that involve parallel, perpendicular and transversal lines, and pairs of angles formed between them.
- Demonstrate an understanding of angles, including acute, right, obtuse, straight and reflex, by:
 - o Drawing
 - o replicating and constructing
 - o bisecting
 - solving problems
- Solve problems that involve unit pricing and currency exchange, using proportional reasoning.
- Demonstrate an understanding of income, including:
 - o Wages
 - o Salary
 - o Contracts
 - o Commissions
 - Piecework
- Solve problems that require the manipulation and application of formulas related to:
 - o Perimeter
 - o Area
 - o Pythagorean theorem
 - o primary trigonometric ratios
 - o income

Evaluation

Quizzes (3-4)	20%
Assignments (5-6)	50%
Final Exam	30%
Total	100%

The minimum pre-requisite for progression is 1.7 (refer to Grading System on following page)

Grading System

Descriptor	4.0 Scale	Percent
	4.0	96 - 100
Excellent	4.0	90 – 95
	3.7	85 – 89
	3.3	81 – 84
Good	3.0	77 – 80
	2.7	73 – 76
	2.3	69 – 72
Satisfactory	2.0	65 – 68
Minimum Prerequisite	1.7	60 - 64
Poor	1.3	55 – 59
Minimum Pass	1.0	50 – 54
Failure	0.0	0 - 49

Proposed Schedule of Topics (see calendar below)

150 hours Total

Proposed Time Frame	Chapter and Chapter Sections
	3 hours = 1 day, 15 hours = 1 week
6 hours (2 days)	Skill Assessments
Deview	GED Entry tests
Review	GED 6.1 Number Sense
24 hours (8 days)	GED 6.2 Operations with whole Numbers
	GED 6.3 Word problems GED 6.4 Order of Operations: Multi-Step Problem Solving
	GED 6.4 Order of Operations. Multi-Step Problem Solving GED 6.5 Fraction Facts
	GED 6.6 Ratio and Proportion
	GED 6.7 Operations with Eractions
	GED 6.8 Decimal Facts
	GED 6.9 Operations with Decimals
	GED 6.10 Fraction & Decimal Changes
	• GED 6.11 – 6.13 Percent
Numbers and Operations:	MW 1.1 Proportional Reasoning
Unit Pricing	MW 1.2 Unit Price
15 hours	MW 1.3 & 1.4 Setting Prices: Markup and Discount
Numbers and Operations:	MW 2.1 Wages and Salaries
Earning Income	MW 2.2 Alternative ways to earn money
15 hours	MW 2.3 Additional Earnings
	MW 2.4 Deductions and Net Pay
Measurement and Data	MW 3.1 Systems of Measurement
Analysis	MW 3.2 Converting Measurements
30 hours	MW 3.3 Surface Area
	• MW 3.4 Volume
	MW 4.1 Temperature Conversions
	MW 4.2 Mass in the Imperial System MW 4.2 Mass in the Systema International
	 MW 4.4 Making Conversions
	GED 6 16 Measure of Central Tendency
	GED 6.17 Interpreting Graphs
O a a reaction i	
15 hours	GED 6.23 Triangle, Parallelograms and Circles GED 6.24 Angles & Parallel Lines
15 116013	 GED 0.24 Angles & Falallel Lines GED 6.25 Triangles and Quadrilaterals: Congruency and
	Similarity
	GED 6.27 Right Triangles: Pythagorean Theorem
	MW Chapter 7 Trigonometry of Right Triangles: Ratios and
	Problem Solving
Geometry	MW 7.1 The Pythagorean Theorem
Right Triangles	MW 7.2 The Sine Ratio
15 hours	MW 7.3 The Cosine Ratio
	• MW 7.4 The Tangent Ratio
	MWV 7.5 Finding Angles and Solving Right Triangles

Algebra 15 hours	 GED 6.18 Integers GED 6.19 Equations GED 6.20 Exponents and roots GED 6.21 Multiplication and Factoring of Binomials
15 hours	 GED 6.22 Coordinate Plane GED 6.22 Slope of a Line GED 6.22 Equation of a line
	Final Exam (Cumulative)
	150 Hours Math Instruction, Approx. 10 Weeks

<u>Please Note:</u> Date and time allotted to each topic is subject to change.

Final exams are scheduled by the College.

Performance Requirements

Student Responsibilities

It is your responsibility as a student to contact the Office of the Registrar to complete the forms for Withdrawal or Change of Registration, and any other forms. Please refer to the list of important dates as noted in the Academic Schedule in the Keyano College Credit Calendar.

More specific details are found in the Student Rights and Student Code of Conduct section of the Keyano College credit calendar. It is the responsibility of each student to be aware of the guidelines outlined in the Student Rights and Student Code of Conduct Policies.

Student Attendance

Class attendance is useful for two reasons. First, class attendance maximizes a student's learning experience. Second, attending class is a good way to keep informed of matters relating to the administration of the course (e.g., the timing of assignments and exams). Ultimately, you are responsible for your own learning and performance in this course.

It is the responsibility of each student to be prepared for all classes. Students who miss classes are responsible for the material covered in those classes and for ensuring that they are prepared for the next class, including the completion of any assignments and / or notes that may be due.

Academic Misconduct

Students are considered to be responsible adults and should adhere to principles of intellectual integrity. Intellectual dishonesty may take many forms, such as:

- Plagiarism or the submission of another person's work as one's own
- The use of unauthorized aids in assignments or examinations (cheating)
- Collusion or the unauthorized collaboration with others in preparing work
- The deliberate misrepresentation of qualifications
- The willful distortion of results or data
- Substitution in an examination by another person
- Handing in the same unchanged work as submitted for another assignment

The consequences for academic misconduct range from a verbal reprimand to expulsion from the College. More specific descriptions and details are found in the Student Rights and Student Code of Conduct section of the Keyano College credit calendar. It is the responsibility of each student to be aware of the guidelines outlined in the Student Rights and Student Code of Conduct Policies.

In order to ensure your understanding of the concept of plagiarism, you must successfully complete the online tutorial found on <u>ilearn.keyano.ca</u>. Then print the certificate, sign it, and show it to each of your instructors. Your course work will not be graded until you show this signed certificate.

Specialized Supports

The Student Academic Support Services (SASS) department: Accessibility Services, Skill Centre and Wellness Services, work together to support student success at Keyano College.

Accessibility Services (CC167) supports student success through group and individualized instruction of learning, study and test taking strategies, and adaptive technologies. Students with documented disabilities, or who suspect a disability, can meet with the Learning Strategists to discuss accommodation of the learning barriers that they may be experiencing. Students who have accessed accommodations in the past are encouraged to visit our office at their earliest opportunity to discuss the availability of accommodations in their current courses. Individual appointments can be made by calling 780-791-8934

Skill Centre (CC119) provides a learning space where students can gather to share ideas, collaborate on projects and get new perspectives on learning from our tutorial staff. Students visiting the centre have access to one-to-one or group tutoring, facilitated study groups, and assistance in academic writing. The Skill Centre's Peer Tutor program provides paid employment opportunities for students who have demonstrated academic success and want to share what they have learned. Tutoring is available free to any students registered at Keyano College on a drop in basis, from 9:00 am to 5:00 pm Monday through Friday. Additional evening hours are subject to tutor availability and are posted in the Skill Centre.

Wellness Services (CC260) offers a caring, inclusive, and respectful environment where students can access free group and individual support to meet academic and life challenges. Mental Health Coordinators offer a safe and confidential environment to seek help with personal concerns. The Mindfulness Room in CC260 is available as a quiet space for students to relax during regular office hours. Wellness Service welcomes students to participate in any of the group sessions offered throughout the academic year addressing such topics as Mindfulness and Test Anxiety. Individual appointments can be made by calling 780-791-8934.

Please watch your Keyano email for workshop announcements from our Student Academic Support Services team.
