Re: Co-op Work Permit for mandatory component of Environmental Technology Coop Diploma
Designated Learning Institution (DLI) #: **O19283886532**

To Whom It May Concern:

This letter confirms that a Co-op/Work Placement/Internship is a mandatory requirement of the **Environmental Technology Coop Diploma at Keyano College for the Winter 2023 intake**. This letter is to be used as supporting documentation to apply for a Canadian Co-op Work Permit.

All students in this program are required to complete a mandatory work experience component in order to receive their credential. The work experience component forms less than 50% of the total program of study and provides students with real-world experiences that are applicable to their education and future careers

For students in this intake who follow the program's standard enrolment path, work experience details are:

Number of hours: 600 hours

**Date range: Year 1 Term 3 (January 2024 – April 2024) OR
Year 2 Term 2 (May 2024 – August 2024)**

Sincerely,

A handwritten signature in black ink, appearing to read "Rebecca Tait".
